SSC JE General Intelligence Reasoning CIVIL Electrical Mechanical Solved Papers *Examination Papers* University of
Madras,1921 Cheap and Tasteful Dwellings Jan Jennings,2005 In 1879 Carpentry and Building magazine launched its
first house design competition for a cheap house Forty two competitions eighty six winning designs and a slew of near winners
and losers resulted in a body of work that offers an entire history of architectural culture The competitions represented a
vital period of transition in delineating roles and responsibilities of architectural services and building trades The contests
helped to define the training education and values of practical architects and to solidify house planning ideals The lives and
work of ordinary architects who competed in Carpentry and Building contests offer a reinterpretation of architectural
professionalization in this time period Cheap and Tasteful Dwellings thoroughly explores the results of these competitions
conducted over a thirty year period from 1879 to 1909 The book outlines the philosophy behind and procedures developed for
running the competitions looks at characteristics of the eighty six winners of the competitions examines the nature of
architectural practices during the period analyzes the winning competition designs and provides biographical details of
competition winners and losers A landmark book in architectural history Cheap and Tasteful Dwellings makes a compelling
case for the theory of convenient arrangement its history its role its principles its relationship to contemporary interior
design education and its meaning to American architecture More importantly the book explains the impact of Carpentry and
Building s contests in furthering the tenets of convenient arrangement for house design By using extensive material from the
magazine Jennings leaves little doubt as to how important this overlooked story is to the history of American architecture as
