Aid Paradoxes in Afghanistan Nematullah Bizhan,2017-08-14 The relationship between aid and state building is highly complex and the effects of aid on weak states depend on donors interests aid modalities and the recipient s pre existing institutional and socio political conditions This book argues that in the case of Afghanistan the country inherited conditions that were not favourable for effective state building Although some of the problems that emerged in the post 2001 state building process were predictable the types of interventions that occurred including an aid architecture which largely bypassed the state the subordination of state building to the war on terror and the short horizon policy choices of donors and the Afghan government reduced the effectiveness of the aid and undermined effective state building By examining how foreign aid affected state building in Afghanistan since the US militarily intervened in Afghanistan in late 2001 until the end of President Hamid Karzai s first term in 2009 this book reveals the dynamic and complex relations between the Afghan government and foreign donors in their efforts to rebuild state institutions The work explores three key areas how donors supported government reforms to improve the taxation system how government reorganized the state s fiscal management system and how aid dependency and aid distribution outside the government budget affected interactions between state and society Given that external revenue in the form of tribute subsidies and aid has shaped the characteristics of the state in Afghanistan since the mid eighteenth century this book situates state building in a historical context This book will be invaluable for practitioners and anyone studying political economy state building international development and the politics of foreign aid **Second Wind** Cami Ostman,2010-10-19 *Second Wind* is the story of an unlikely athlete and an unlikely heroine Cami Ostman a woman edging toward midlife who decides to take on a challenge that stretches her way outside of her comfort zone That challenge presents itself when an old friend suggests she go for a run to distract her from the grief of her recent divorce Excited by the clarity of mind and breathing space running offers her she keeps it up albeit slowly and she decides to run seven marathons on seven continents this becomes Ostman s vision quest the thing she turns to during the ups and downs of a new romance and during the hard months and years of redefining herself in the aftermath of the very restrictive religious based marriage and life she led up until her divorce Insightful and uplifting *Second Wind* carries the reader along for the ride as Ostman runs her way out of compliance with the patriarchal rules about being a woman that long held her captive and into authenticity and self love Her adventures and the personal revelations that accompany them inspire
