Arms and the Man was one of Shaw's first commercial successes. He was called onto stage after the curtain where he received enthusiastic applause. Amidst the cheers one audience member booed. Shaw replied in characteristic fashion: "My dear fellow, I quite agree with you, but what are we two against so many?" Arms and the Man is a humorous play that shows the futility of war and deals comedically with the hypocrisies of human nature. — *Arms and the Man* G. Bernard Shaw, 2024-11-24

It will repay those who seek analogies in literature to compare Shaw with Cervantes. After a life of heroic endeavor, disappointment, slavery, and poverty, the author of *Don Quixote* gave the world a serious work which caused to be laughed off the world's stage forever the final vestiges of decadent chivalry. The institution had long been outgrown, but its vernacular continued to be the speech and to express the thought of the world, and among the vulgar as the quaint old novelist puts it, just as to day the novel intended for the consumption of the unenlightened must deal with peers and millionaires and be dressed in stilted language. Marvellously he succeeded, but in a way he least intended. We have not yet after so many years determined whether it is a work to laugh or cry over. It is our joyfulest modern book, says Carlyle, while Landor thinks that readers who see nothing more than a burlesque in *Don Quixote* have but shallow appreciation of the work. Shaw in like manner comes upon the scene when many of our social usages are outworn. He sees the fact, announces it, and we burst into guffaws. The continuous laughter which greets Shaw's plays arises from a real contrast in the point of view of the dramatist and his audiences. When Pinero or Jones describes a whimsical situation, we never doubt for a moment that the author's point of view is our own, and that the abnormal predicament of his characters appeals to him in the same light as to his audience. With Shaw this sense of community of feeling is wholly lacking. He describes things as he sees them, and the house is in a roar. Who is right? If we were really using our own senses and not gazing through the glasses of convention and romance and make-believe, should we see things as Shaw does? Must it not cause Shaw to doubt his own or the public's sanity to hear audiences laughing boisterously over tragic situations? And yet if they did not come to laugh, they would not come at all. Mockery is the price he must pay for a hearing. Or has he calculated to a nicety the power of reaction? Does he seek to drive us to aspiration by the portrayal of sordidness, to disinterestedness by the picture of selfishness, to illusion by disillusionment? It is impossible to believe that he is unconscious of the humor of his dramatic situations, yet he stoically gives no sign. He even dares the charge terrible in proportion to its truth, which the most serious of us shrinks from: the lack of a sense of humor. Men would rather have their integrity impugned. In *Arms and the Man* the subject which occupies the dramatist's attention is that survival of barbarity, militarism, which raises its horrid head from time to time to cast a doubt on the reality of our civilization. No more hoary superstition survives than that the donning of a uniform changes the nature of the wearer. This notion pervades society to such an extent that when we find some soldiers placed upon the stage acting rationally, our conventionalized senses are shocked. The only men who have no illusions about war are those who have recently been there, and of course Mr. Shaw, who has no illusions about anything. — *Arms and the Man* George Bernard Shaw

Of Arms and Men Robert L. O'Connell,1990-04-19 The appearance of the crossbow on the European battle field in A D

1100 as the weapon of choice for shooting down knights threatened the status quo of medieval chivalric fighting techniques. By 1139 the Church had intervened outlawing the use of the crossbow among Christians. With this edict arms control was born. As Robert L O Connell reveals in this vividly written history of weapons in Western culture that first attempt at an arms control measure characterizes the complex and often paradoxical relationship between men and arms throughout the centuries. In a sweeping narrative that ranges from prehistoric times to the nuclear age O Connell demonstrates how social and economic conditions determine the types of weapons and the tactics used in warfare and how in turn innovations in weapons technology often undercut social values. He describes for instance how the invention of the gun required a redefinition of courage from aggressive ferocity to calmness under fire and how the machine gun in World War I so overthrew traditional notions of combat that Lord Kitchener exclaimed This isn't war. The technology unleashed during the Great War radically altered our perceptions of ourselves as these new weapons made human qualities almost irrelevant in combat. With the invention of the atomic bomb humanity itself became subservient to the weapons it had produced. *Of Arms and Men* brilliantly integrates the evolution of politics weapons strategy and tactics into a coherent narrative one spiced with striking portraits of men in combat and penetrating insights into why men go to war. **Roman Centurions 31 BC-AD 500** Raffaele D'Amato, 2012-02-20 Lavishly illustrated and drawing upon the latest archaeological findings a complete re-evaluation of the appearance role and influence of Rome's most famous soldiers during the five centuries of the Roman Empire's greatest extent and influence.
