A Forger's Progress Alasdair McGregor, 2014-11-01 A forger and convicted felon Francis Greenway was transported to Sydney in 1814. Only a decade later his dreams of a city superior in architectural beauty to London began to be realized as he designed Hyde Park Barracks, St James Church, the Supreme Court, St Luke's Church in Liverpool and the Windsor courthouse. In this first biography of Greenway since 1953, award-winning author Alasdair McGregor scrutinizes the character and creative output of a man beset by contradictions and demons. He profiles Greenway's landmark buildings, his complex and fraught relationship with Governor Lachlan Macquarie and his thwarted ambitions and self-destruction.

Science, Entertainment and Television Documentary Vincent Campbell, 2016-05-13 The shift from traditional documentary to factual entertainment television has been the subject of much debate and criticism, particularly with regard to the representation of science. New types of factual programming that combine documentary techniques with those of entertainment formats such as drama, game shows, and reality TV have come in for strident criticism. Often featuring spectacular visual effects produced by computer-generated imagery, these programmes blur the boundaries between mainstream science and popular beliefs. Through close analysis of programmes across a range of sciences, this book explores these issues to see if criticisms of such hybrid programmes as representing the rotting carcass of science TV really are valid. Campbell considers, in fact, when considered in relation to the principles, practices, and communication strategies of different sciences, these shows can be seen to offer more complex and rich representations that construct sciences as objects of wonder, awe, and the sublime.

Iran Homa Katouzian, 2013-06-01 World-renowned Iranian expert Homa Katouzian presents the first comprehensive introduction to one of the world's most controversial and misunderstood countries. Since the 1979 revolution, Iran has been locked in conflict with the United States and Europe. Personified in the West by a series of bogeymen from Ayatollah Khomeini to Mahmoud Ahmadinejad, this villainous mask obscures a far more complex identity forged by a vibrant and chaotic history. Revealing the country's true face, acclaimed expert Homa Katouzian delves deep into Iran's past, exploring how an ancient civilization at a crossroads of diverse dynasties and religions grew to become an ethnically, linguistically, and culturally rich nation. Centuries of arbitrary rule and revolution, from the first Persian empires to the Green Movement, are brought to life as Katouzian offers fresh insight into this fascinating country. Asking where its future may lie post-Arab Spring, this is the perfect primer for understanding a country characterized by constant flux and controversy.

Land of Lion, Land of Sun Rafie Hamidpour Ph. D. D. E. Dabfe, 2010-03 Every culture experiences it at some point in time, but after the Arab invasion of Persia, many of its people felt lost. Persians now had a choice: they could accept a new culture including nationality, or they could hold tight to the unique attributes making up their Persian identities.
