Armoured Train:

Armoured Trains Paul Malmassari, 2016 Military forces around the world were quick to see the advantages of railways in warfare whether for the rapid deployment of men or the movement of heavy equipment like artillery From this realization it was a short step to making the train a potent weapon in its own right a mobile fort or a battleship on rails Armed and armored they became the first practical self propelled war machines As demonstrated in the American Civil War these trains were able to make a significant contribution to battlefield success This truly encyclopedic book covers country by country the range of fighting equipment that rode the rails over nearly two centuries While this book outlines the place of armored trains in the evolution of warfare it concentrates on details of their design through a vast array of photographs and the author's meticulous drawings *Red Army Order of Battle in WWII, October to December 1942* Maximino Argüelles Martínez, 2020-01-17 FRONTOVİK was the name that the veterans who served in the Soviet Armed Forces across the Great Patriotic War between 1941 and 1945 were known The purpose of this FRONTOVİK is to reflect the structure and deployment of the Red Army throughout the year 1942 This work is part of a global monthly study from June 1941 to September 1945 The main sources for this study were the documents published by the Department of Military History of the Ministry of Defence of the Soviet Union in 1966 containing data from January 1 to December 1 1942 and the works of Colonel David M Glantz along with numerous secondary sources All the images illustrations tactical symbols and maps were made by the author as a personal tribute to the veterans that served in those units *Red Army Order of Battle in WWII, January to March 1943* Maximino Argüelles Martínez, 2020-11-17 FRONTOVİK was the name that the veterans who served in the Soviet Armed Forces across the Great Patriotic War between 1941 and 1945 were known The purpose of this FRONTOVİK is to reflect the structure and deployment of the Red Army throughout the year 1943 This work is part of a global monthly study from June 1941 to September 1945 The main sources for this study were the documents published by the Department of Military History of the Ministry of Defence of the Soviet Union in 1972 containing data from January 1 to December 1 1943 and the works of Colonel David M Glantz along with numerous secondary sources All the images illustrations tactical symbols and maps were made by the author as a personal tribute to the veterans that served in those units *Red Army Order of Battle in WWII, April to June 1942* Maximino Argüelles Martínez, 2019-05-15 FRONTOVİK was the name that the veterans who served in the Soviet Armed Forces across the Great Patriotic War between 1941 and 1945 were known The purpose of this FRONTOVİK is to reflect the structure and deployment of the Red Army from January to March 1942 This work is part of a global monthly study from June 1941 to September 1945 The main sources for this study were the documents published by the Department of Military History of the Ministry of Defence of the Soviet Union in 1966 containing data from January 1 to December 1 1941 and the works of Colonel David M Glantz along with numerous secondary sources All the images illustrations tactical symbols and maps were made by the author as a personal tribute to the veterans that served in those
