Sabina,2002 Working on the premise that readers learn by doing Sabina takes readers step by step through the basics of arranging for the big band Over 200 music examples support the theory presented in this text and over 60 of the most valuable examples also appear on a dynamic interactive CD ROM that is shrink wrapped with every new copy of the book Music examples appear in two formats with synthesizer sound locked Finale files for analysis and unlocked Standard MIDI Format files that allow readers to experiment with sound and technique as they change the musical examples Using the MIDI files readers can manipulate print and save their arrangements The text and CD ROM also include three complete arrangements that span from swing to jazz rock Back matter includes a comprehensive glossary bibliography and discography Inside the Score in the 21st Century Charles Tyler Dennis,2012 This study will attempt to de mystify some of the techniques utilized in contemporary large ensemble jazz arranging Large ensemble writing has morphed drastically from its earlier more well known inceptions and yet there is no academic literature out there to explain exactly what this change entails Through this study I will attempt to break down the components of this music in order to provide insight for the non musician and inspiration for the aspiring jazz composer There is a wealth of knowledge to be found in the large ensemble music of the past decade and I will attempt to systematically break this up into digestible bits Rather than presenting entire scores for analysis I will analyze the scores on my own and then organize the information based on eight sub categories that I believe are inherent in all big band music harmony melody voicings form counterpoint texture orchestration and unifying components This way each of these components can be compared and contrasted which will hopefully offer new angles on writing for composers and composer performers alike Large ensemble writing is truly an artform and it is vital that this information be disseminated among younger writers which is why a study such as this serves a very important purpose There are gaps in the traditional jazz education materials with regard to more contemporary forms of arranging and hopefully this study will help to bridge some
