Art And Human Consciousness:

Art and Human Consciousness Gottfried Richter, 1985 This survey of western art from ancient Egypt to Picasso looks at visual art in a completely new and imaginative way Gottfried Richter's lively and penetrating observations will inspire and enthuse the novice while breathing new life into the thinking of art critics and historians Richter concerns himself broadly with architecture sculpture and painting as well as mythology and legend in presenting the creations of artist and architect as an expression of the evolution of human consciousness In vivid images he offers the reader interpretive keys to understand this process in all areas of art history With many examples the author illustrates how human life has undergone a qualitative transformation as humanity has gradually freed itself from a life determined by spiritual guidance in order to take hold of the sensory world and experience free individuality

Icon and Idea Herbert Read, 1969 *Icon and Idea* Herbert Edward Read, 1972 This is one of those rare books whose influence will grow rather than diminish with the years *Icon and Idea* is destined to take its place beside Ernst Cassirer's massive and difficult *The Philosophy of Symbolic Forms* as a basic work on the original creative power of the human spirit as it is enacted as culture in myth religion science art Sir Herbert Read's book is neither massive nor difficult It was first delivered as the Charles Eliot Norton Lectures 1953 1954 at Harvard Text and pictures together illustrate the intellectual courage of a great art critic aesthetician and intellectual theorist as well as poet and novelist Advancing beyond Cassirer's theory of the irreducible autonomy of culture Read develops his theory that the image always precedes the idea in the development of human consciousness Having established this major thesis Read goes on to elaborate it in a way that will interest not only students of art history and the social sciences but any reader interested in the right basis for education In arguing the primacy of art work in human development Read gives the reader a fine general education in the history and psychology of art

Strange Tools Alva Noë, 2015-09-22 A philosopher makes the case for thinking of works of art as tools for investigating ourselves In *Strange Tools Art and Human Nature* the philosopher and cognitive scientist Alva Noë argues that our obsession with works of art has gotten in the way of understanding how art works on us For Noë art isn't a phenomenon in need of an explanation but a mode of research a method of investigating what makes us human a strange tool Art isn't just something to look at or listen to it is a challenge a dare to try to make sense of what it is all about Art aims not for satisfaction but for confrontation intervention and subversion Through diverse and provocative examples from the history of art making Noë reveals the transformative power of artistic production By staging a dance choreographers cast light on the way bodily movement organizes us Painting goes beyond depiction and representation to call into question the role of pictures in our lives Accordingly we cannot reduce art to some natural aesthetic sense or trigger recent efforts to frame questions of art in terms of neurobiology and evolutionary theory alone are doomed to fail By engaging with art we are able to study ourselves in profoundly novel ways In fact art and philosophy have much more in common than we might think Reframing the conversation around artists and their craft *Strange Tools* is a daring and stimulating intervention in contemporary thought Praise for *Strange Tools* With incisive arguments and in crisp and engaging prose *Strange Tools* brings the discourse on the function of art and beauty to a different level Science A stimulating and wide ranging investigation of the meaning of art A searching and learned response to vexing long debated questions Kirkus Reviews Noë offers a unique analysis on the role of art and also philosophy in our lives Readers with an interest in philosophy aesthetics or art will find this an accessible and engaging read Library Journal

Consciousness and Transcendence Loomis Mayer, 2023-10-27 A central but rarely explored mystery of human existence and subjective consciousness was recognized by Blaise Pascal several centuries ago Why am I me and not you or anyone else Science can explain why there is objectively a person here but not why that person is subjectively me This relates to the more widely debated mind body problem more currently known as the Hard Problem of Consciousness Moving on to human culture including religion and the arts this book asks whether these are the direct result of Darwinian evolution or rather of the nature of human consciousness Do the mysteries of our consciousness of our existence have a role to play

Modern Consciousness Research and the Understanding of Art Stanislav Grof, 2015 In 200 spellbinding pages including over 100 large full color illustrations *Modern Consciousness Research and the Understanding of Art* takes readers

on an enchanting tour of the human psyche and a visual tour of the artwork of H R Giger In this book Grof illuminates themes related to dreams trauma sexuality birth and death by applying his penetrating analysis to the work of Giger and other visionary artists *The Study of the Meaning of Life* Zhengyu Sun,2024-10-28 Based on the revelation and analysis of the social self consciousness contained in the individual self consciousness of the meaning of life the book discusses the human life world spiritual world cultural world and meaning world Then it states the life world modes of thought values ideas aesthetic consciousness and ultimate concerns of modern humans It also systematically expounds on the cultivation the truth the nurture the sublimation the support the tension and the source of the spiritual home in perspectives of education science art philosophy theory mentality and ideals Constructing a fulfilling spiritual home for man is the realistic meaning of this book **The Arts** ,1921 **American Journal of Archaeology and of the History of the Fine Arts** ,1894 *The Arts* Hamilton Easter Field,Forbes Watson,1921 **Art and Identity** Tone Roald,Johannes Lang,2013 Art has the capacity to shape and alter our identities It can influence who and what we are Those who have had aesthetic experiences know this intimately and yet the study of art s impact on the mind struggles to be recognized as a centrally important field within the discipline of psychology The main thesis of Art and Identity is that aesthetic experience represents a prototype for meaningful experience warranting intense philosophical and psychological investigation Currently psychology remains too closed off from the rich reflection of philosophical aesthetics while philosophy continues to be sceptical of the psychological reduction of art to its potential for Subjective experience At the same time philosophical aesthetics cannot escape making certain assumptions about the psyche and benefits from entering into a dialogue with psychology Art and Identity brings together philosophical and psychological perspectives on aesthetics in order to explore how art creates minds **Art in America** ,1920 Proceedings of the American Academy of Arts and Letters and the National Institute of Arts and Letters American Academy of Arts and Letters,1910
