**Art and Its Objects** Richard Wollheim, 1980-09-30 Aims to convey the author's belief that the nature of art has to be comprehensible from both the artist's and the spectator's point of view. In pursuing this, the book considers questions on expression, representation, style, the significance of the artist.

**Art and Its Significance** Stephen David Ross, 1984-06-30 The philosophy of art, including the theory of interpretation, has been among the most generative branches of philosophy in the latter half of the twentieth century. Remarkable, interesting, and important work has emerged on both sides of the Atlantic from all the major sources of philosophic thought. For the first time, Stephen David Ross brings together the best of recent writing with the major historical texts and the most influential works of the past century to provide valuable insight into the nature of art and how we are to understand it. The selections in this collection comprise a remarkably wide array of positions on the nature and importance of art in human experience. A wealth of material is divided into four parts. Part I, from the history of philosophy, includes selections by the essential writers: Plato, Aristotle, Kant, Hegel, Nietzsche. In Part II, there are significant selections from Dewey, Langer, Goodman, Heidegger, and Merleau-Ponty. The major selections in Part III are from Hirsch and Gadamer on the nature of interpretation, supplemented by selections from Pepper, Derrida, and Foucault. Selections in Part IV sharpen the issues that emerge from the more theoretical discussions in the preceding sections. Part IV includes important psychological theories, seminal proclamations by twentieth-century artists, and selections from Bullough on aesthetic distance, as well as from Marcuse who develops an important variation on the Marxist view of art.
