America Peter Harrison's renown suffers from the destruction of most of his papers when he died in 1775 He was born in
Yorkshire England in 1716 and trained to be an architect as a teenager He also became a ship captain and soon sailed to
ports in America where he began designing some of the most iconic buildings of the continent In a clandestine operation he
procured the plans for the French Canadian fortress of Louisbourg enabling Massachusetts Governor William Shirley to
capture it in 1745 This setback forced the French to halt their operation to capture all of British America and to give up
British territory they had captured in India As a result he was rewarded with commissions to design important buildings in
Britain and in nearly all British colonies around the world and he became the first person ever to have designed buildings on
six continents He designed mostly in a neo Palladian style and invented a way of building wooden structures so as to look like
carved stone wooden rustication He also designed some of America's most valuable furniture including inventing the coveted
