A World Turned Upside Down Louis Palmer Towles, 1996 Through letters and journal entries rich in detail

this text follows the trials of the 19th century Palmer family who dominated the southern banks of South Carolina's Santee River. The volume offers insights into plantation life, education, religion, and slave-master relations. *Science and Empire in the Atlantic World* James Delbourgo, Nicholas Dew, 2008-09-25. Science and Empire in the Atlantic World is the first book in the growing field of Atlantic Studies to examine the production of scientific knowledge in the Atlantic world from a comparative and international perspective. Rather than focusing on a specific scientific field or single national context, this collection captures the multiplicity of practices, people, languages, and agendas that characterized the traffic in knowledge around the Atlantic world, linking this knowledge to the social processes fundamental to colonialism, such as travel, trade, ethnography, and slavery.

Designing a World-Class Architecture Firm Patrick MacLeamy, 2020-04-14. Offers architects and creative services professionals exclusive insights and strategies for success from the former CEO of HOK. Designing a World-Class Architecture Firm: The People, Stories, and Strategies Behind HOK tells the history of one of the largest design firms in the world and draws lessons from it that can help other architects, interior designers, urban planners, and creative services professionals grow bigger or better. Former HOK CEO Patrick MacLeamy shares the revolutionary strategies HOK's founders deployed to create a brand-new type of architecture firm. He pulls no punches, revealing the triple crisis that almost bankrupted HOK and describes how any firm can survive and thrive. Designing a World-Class Architecture Firm tells the inside story of many of HOK's most iconic buildings, including the National Air and Space Museum, Moscone Convention Center, Oriole Park at Camden Yards, the Houston Galleria, and the reimagined LaGuardia Airport. Each chapter conveys lessons learned from HOK's successes and failures, including the importance of diversifying to depression and recession, proof your firm, the benefit of organizing your firm around specialized leaders and project types, the difference between leading and managing your people, the value of simple financial metrics to ensure your firm's health and profitability, the run toward trouble strategy which prevents problems from ballooning. MacLeamy delivers his advice via inspirational stories, such as how HOK survived when its home office in St. Louis went up in flames, and humorous stories like the time an HOK executive was mistaken for royalty on a trip to Saudi Arabia. In this tell-all guide, the driven architecture or design professional will find the tools needed to evolve or grow any firm.
