**Cold Steel Rain** Kenneth Abel, Nothing stays dead in New Orleans Not for long anyway No one knows this better than ex district attorney Danny Chaisson the dead show up in his bathroom mirror every morning staring right back at him with hollow eyes Chaisson is the legman for Jimmy Boudrieux speaker of the Louisiana House of Representatives for whom dirty dealing is more than just a way of life So when Danny makes his regular pick up of a briefcase full of handguns at a downtown Vietnamese restaurant leaves the room for a moment and returns to find a bloodbath he knows the next bullet has his name on it And nobody least of all Boudrieux or the crooked cops who control the NOPD is going to lift a finger to help him From the bestselling author of *Bait* A scorcher clever tough and terrific enough to make you comb publishers lists for his next *Time Out* *Cold Steel* Styers John,1901 **Cold Steel** Martina Sprague,2013-05-30 Knives have been carried with enthusiasm as sidearms to swords since antiquity and as sidearms to firearms into modern day Knife combat involves strategy the planning behind an attack which allows the soldier to reach a combat objective and tactics the actual use of the knife for example to dispose of an enemy in trench warfare or to kill a sentry at night Historically serving several missions the knife has proven a good infiltration weapon when silence must be preserved It has been used for killing sentries and has come in handy in close quarters on the large battlefield for example in foxholes where firearms or grenades would have been impractical Soldiers recognized early the benefits of carrying a small and lightweight weapon that could be concealed on one s person relied upon in the hand to hand fight or deployed to finish an adversary at close range when one s firearm malfunctioned Although soldiers carry knives for a variety of purposes not all knives are designed strictly for fighting but also double as tools such as trench digger ration opener parachute line cutter etc this book concerns itself primarily with the role the knife has played as a combat weapon in near modern and modern warfare in the western world Combat can further be broken down into the use of the knife to kill an enemy including sentry killings and trench raids and the psychological use of the knife as a weapon of coercion or to send the enemy to flight The book begins with a discussion of knife design and carry which purpose it is to familiarize the reader with the many factors the knife smith must consider when crafting the weapon Next it demonstrates the important function the knife has served as a battlefield sidearm in the different military branches It then examines the effectiveness of the knife and how soldiers have trained to prepare for the possibility of using cold steel against an enemy combatant The concluding remarks focus on the knife as a weapon of inspiration *Knives Swords and Bayonets* A World History of Edged Weapon Warfare is a book series that examines the history of edged weapons in Europe Asia Africa the Americas and the Middle East and surrounding areas before gunpowder increased the distance between combatants The book series takes a critical look at the relationship between the soldier his weapon and the social and political mores of the times Each book examines the historical background and metallurgic science of the knife sword or bayonet respectively and explores the handling characteristics and combat applications of each weapon The individual books

**Ivan the Terrible** Alexander Filjushkin, 2008-08-30 An in depth look at the military strategy of the first Russian ruler to invade Europe Ivan's campaigns against the Livonian Confederation were initially very successful In 1558 Russian soldiers occupied Dorpat and Narva and laid siege to Reval creating vital trade routes over the Baltic Sea At the Battle of Ergema the Russians defeated the knights of the Livonian Order fueling Ivan's dreams of a Russian Empire However as Erik XIV of Sweden recaptured Reval and the Poles joined forces with the Lithuanians the war began to turn against Ivan In 1571 an army of 120 000 Crimean Tatars crossed the River Ugra crushed the Russian defenses and burned Moscow to the ground As Ivan became increasingly paranoid and violent he carried out a number of terrible massacres It is thought that more than forty thousand were killed when the Russians sacked the town of Novgorod in 1570 and many were tortured and murdered in front of Ivan and his son This book describes the organization and equipment of the tsar's army and the forces of his enemies the Poles Lithuanians Tatars and Livonian Knights The narrative examines all of Russia's military campaigns in Eastern Europe and Western Siberia during the period of 1533 to 1584 in the first specialist study of Ivan the Terrible's military strategy to be published in English
