Cold War in the Working Class Ronald L. Filippelli, Mark McColloch, 1995-01-01 This book tells the story of the rise and decline of the United Electrical Radio and Machine Workers of America UE from 1933 to 1990 Once the third largest industrial union in the United States the UE was the most powerful left wing institution in U S history and arguably the most significant victim of the anti communist purges that marked post World War II America This is an institutional study of the formation of the UE and the struggle for its control by left wing and right wing factions Unlike most books on unions during the Cold War this study carries the story up to the present showing the long term effects of the ideological battles

Working-class Americanism Gary Gerstle, 2002-03-31 In this classic interpretation of the 1930s rise of industrial unionism Gary Gerstle challenges the popular historical notion that American workers embrace of Americanism and other patriotic sentiments in the post World War I years indicated their fundamental political conservatism He argues that Americanism was a complex even contradictory language of nationalism that lent itself to a wide variety of ideological constructions in the years between World War I and the onset of the Cold War Using the rich and textured material left behind by New England s most powerful textile union the Independent Textile Union of Woonsocket Rhode Island Gerstle uncovers for the first time a more varied and more radical working class discourse

Class and Culture in Cold War America George Lipsitz, 1981

Imagining Internationalism in American and British Labor, 1939-49 Victor Silverman, 2000 Vividly capturing a moment in history when American and British unions seemed about to join with their Soviet counterparts to create a world unified by its workers this wide ranging study uncovers the social cultural and ideological currents that generated worldwide support among workers for a union international as well as the pull of national interests that ultimately subverted it In a striking departure from the conventional wisdom Victor Silverman argues that the ideology of the cold war was essentially imposed from above and came into conflict with the attitudes workers developed about internationalism This work the first to look at internationalism from the point of view of the worker confirms at the level of social and cultural history that the postwar tensions between the Anglo Americans and the Soviets took several years to become a new orthodoxy Silverman demonstrates that for millions of trade unionists in dozens of countries the Cold War began in late 1948 rather than between 1945 and 1946 as generally recorded by diplomatic historians Tracing the faultlines between politics and ideals and between

national and class allegiances Silverman shows how the vision of an international working class recovery was ultimately discredited and the cold war set inexorably in motion War and the Working Class ,1983-09 **Labor's Cold War** Shelton Stromquist,2008 How the Cold War affected local level union politics **Class and Culture in Cold War America** George Lipsitz,1981 *Fifth Congress of the Socialist Alliance of the Working People of Yugoslavia* Socijalistički savez radnog naroda Jugoslavije.
