**Ratschlag betreffend die Genehmigung des Vertrages zwischen dem Kanton Basel-Stadt und dem Kanton Basel-Landschaft betreffend die Verwertung und Vernichtung von Abfallstoffen**, 1969 *The Law of Air Warfare* Natalino Ronzitti (jurist), Gabriella Venturini, 2006 This book is the outcome of a research project directed by Natalino Ronzitti to explore the current status and future prospects of international humanitarian law of air warfare This is achieved through the analysis of international customary law the conventional provisions in force and the most recent State practice As the most recent conflicts suggest air warfare has known an exponential growth However even a rapid analysis of the international humanitarian law applicable to air warfare shows a defective and fragmentary situation This book will fill the current gap that exists in legal literature and will critically review and evaluate recent State practice *Drug War Politics* Eva Bertram, Morris Blachman, Kenneth Sharpe, Peter Andreas, 1996-07-15 Why have our drug wars failed and how might we turn things around Ask the authors of this hardhitting expos of U S efforts to fight drug trafficking and abuse In a bold analysis of a century s worth of policy failure *Drug War Politics* turns on its head many familiar bromides about drug politics It demonstrates how instead of learning from our failures we duplicate and reinforce them in the same flawed policies The authors examine the politics of denial that has led to this catastrophic predicament and propose a basis for a realistic and desperately needed solution Domestic and foreign drug wars have consistently fallen short because they are based on a flawed model of force and punishment the authors show The failure of these misguided solutions has led to harsher get tough policies debilitating cycles of more force and punishment and a drug problem that continues to escalate On the foreign policy front billions of dollars have been wasted corruption has mushroomed and human rights undermined in Latin America and across the globe Yet cheap drugs still flow abundantly across our borders At home more money than ever is spent on law enforcement and an unprecedented number of people disproportionately minorities are incarcerated But drug abuse and addiction persist The authors outline the political struggles that help create and sustain the current punitive approach They probe the workings of Washington politics demonstrating how presidential and congressional out toughing tactics create a logic of escalation while the criticisms and alternatives of reformers are sidelined or silenced Critical of both the punitive model and the legalization approach *Drug War Politics* calls for a bold new public health approach one that frames the drug problem as a public health not a criminal concern The authors argue that only by situating drug issues in the context of our fundamental institutions the family neighborhoods and schools can we hope to provide viable treatment prevention and law enforcement In its comprehensive investigation of our long futile battle with drugs and its original argument for fundamental change this book is essential for every concerned citizen *The Contemporary Law of Targeting* Ian Henderson, 2009 This book provides an analysis of the law of targeting during an armed conflict focusing on what is a lawful target what is proportional collateral damage and describing a process by which legal responsibility for targeting decisions can be assessed
