Customer Mania:

Customer Mania! Kenneth H. Blanchard, Jim Ballard, Fred Finch, 2004-11-15 From one of America's biggest bestselling authors and inspiring business speakers comes the key to creating a people oriented performance driven customer first organization

Customer Mania! Kenneth H. Blanchard, 2004 Customer service is the single most pressing problem for business managers and people in any service or sales operation especially at the retail level In fact many experts believe that you build a business from the customer up In Customer Mania Ken Blanchard one of America's biggest bestselling authors and inspiring business leaders writes of the key to customer service creating a people oriented performance driven customer first organization Along with coauthors Jim Ballard and Fred Finch Blanchard explains why the customer is the right starting place from which to build a successful business By drawing on examples from the world's largest restaurant company Yum owner of KFC Taco Bell Pizza Hut Long John Silver's and A W Restaurants the authors explain how any company large or small can develop a unified people first customer oriented culture

Summary: Customer Mania BusinessNews Publishing, 2013-02-15 The must read summary of Ken Blanchard Jim Ballard and Fred Finch's book Customer Mania It's Never Too Late to Build a Customer Focused Company This complete summary of the ideas from Ken Blanchard Jim Ballard and Fred Finch's book Customer Mania shows that to succeed in business today you have to provide consistently great customer service In other words unless you have a unified people first customer oriented culture it will be difficult to build your business going forward Fortunately any company large or small can achieve this Note that you can't build a customer focused company by emphasizing the results that you want to achieve This is the equivalent of putting the cart before the horse When you focus on results getting people to do the right thing will be an effort people will have to be convinced that's the right way to go A much more effective idea is to concentrate on building your people first and then they will just naturally take care of the customer in the ways you prefer Get your people acting with passion and commitment and everything else will just naturally fall into place With astute management you'll even be able to create a self perpetuating cycle where the work feeds the energy of the people involved which in turn means the work gets done better leading to increased levels of energy in the future and so on Added value of this summary Save time Understand the key concepts Increase your business knowledge To learn more read Customer Mania and discover the key to succeeding in business

Judgment on the Front Line Chris DeRose, Noel M. Tichy, 2012-10-11 Front line employees who deal directly with customers are the face of any organization Not only do they have the most impact on how a brand is perceived but they are also the most valuable source of insight into what customers want and how to give it to them Unfortunately as management experts Chris DeRose and Noel M Tichy explain most organizations don't know how to

evaluate the risk of giving employees more autonomy Many of those who are willing to try haven't even invested resources in ensuring that once the shackles are off front line employees make good judgments Tichy and DeRose offer powerful examples of front line leadership such as How Zappos trusts its people to do anything in service of a customer including providing free product or reimbursing for mistakes How Mayo Clinic of Arizona enabled its nurses to challenge the hierarchy in order to improve patient care
