**Cycles of Becoming** Alexander Rupert, 1978-01-01      [Our Spiritual Destiny](#) Frederick R. Kipp, 2007-10-22

Our Spiritual Destiny Manifesting New Bodies discusses the ways that evolutionary forces are continuing to unfold through all gradations of life. It explains the purpose of human life as the expansion of Consciousness in matter through ongoing body development. We have the choice to fulfill this purpose consciously at an accelerated pace by changing and raising the matter of our bodies to a level of our divine essence. Utilizing the capacities of our Higher Selves within an initiatory framework of growth and transmutation, we can actively participate in our body development, thereby helping to expedite the manifestation of new bodies. The following are passages from various chapters in the book: From Alignment Clarification. Many of the ancient wisdom traditions, sacred religious texts, and modern day writers have all alluded to some form of physical transcendence, life extension, or the raising and refinement of the physical body. From the past, each culture, religion, or entity has its own interpretation and language of what the stories mean or symbolize, and how they apply to the present day. I believe that many of these references relate to physical ascension, physical body perfection, or physical immortality. All include the same premise: that our bodies are of a nature and essence which enable their transformation. From Our Journey into Matter. I have come to see all of creation as a work in progress, gradually working its way towards fulfillment. Through evolutionary forces, matter is continually being prepared to express ever higher aspects of Consciousness in our physical life. It may not always seem like it, but I also believe we are important agents of change for the expansion of consciousness in the world. Our immortal human spirit repeatedly reincarnates within humanity with increasing experience to help unfold and expand a higher plan for matter. However, our main problem with this task is that by taking physical form in matter bodies, we cannot remember our divine origins in the inner, unseen realms. From Remembering. Some religious scholars suggest that the essence of all sacred material is somehow buried deep within our being. If this is true, then helping us remember must be the intent and purpose of all divinely inspired sacred books, spiritual literature, and cultural myths in the world. Somewhere in our Being or Higher Self, we already know the purpose of physical life in matter. As evolution progresses and our consciousness expands through time, we are incrementally working towards remembering this purpose. From Spiritual Orientation and Alignment. For most of us, the physical demands of our daily lives capture our conscious attention and vital energies. This happens gradually within our ritualized patterns and daily activities. Through this physical focus and orientation, the crystallizing force in matter constructs barriers within our consciousness and bodies that maintain and reinforce this alignment. Because of its compelling and coalescing nature, our life energies are drained through attachment to the form and routine of our lives. As a result, we usually feel and believe we have little left over to devote to our spiritual development. From Health and New Body Alignment. Most people have grown up with a body-centered identity. Everything about living in the world seems to condition us to identify with this orientation. The realities of physical life throughout history have encouraged

us to strengthen build up or perfect our natural body in one way or another This alignment has ensured the survival of our species Even today in our modern world we continue to value the attributes of physical strength fitness and vitality as the ultimate experience of a good life From the standpoint of our present bodies and our collective beliefs about them this orientation is helpful and necessary However [Trinities to Enneagrams](#) Allen David Young,2017-09-07 As a spiritual tool and system of personality types the new directions of the enneagram presented in this work give a clear understanding of ourselves and those who are important to us The trinity forces within the enneagram are explained in ways that can greatly benefit people in the personal interpersonal and social spheres of human existence The creation of enneagram signs is adapted from the twelve astrology signs While enneagram types describe ones egocentric personality enneagram signs are given by the cosmos at birth they are one of a kind and reveal ones soul centered personality With the addition of nine signs and stages of development through the life cycle the enneagram becomes a system in motion and reveals more of its insights With the addition of nine enneagram letter groups from the alphabet you can understand what the trinity and enneagram says about the personality of your name **A Special Illumination** Rollan McCleary,2017-07-28 Gay spirituality represents a hidden strand in Western thought that was only publically declared from the Gay Liberation of the 1970s Since coming out expressions of gay spirituality have proliferated in both number and diversity Beginning with gay theology within Christianity the phenomenon has now reached as far as Buddhism and neo paganism But so far critical analysis of the movement has been very limited largely because gay spirituality has been treated as a political and social movement arguing for rights and acceptance within religious circles A Special Illumination offers an indepth analysis and argues that gay spirituality should be placed at the heart of religion **Reincarnation Through the Zodiac** Joan Hodgson,1979 *The Astrology Game* Malcolm Dean,1980 **Contemporary Astrological Observations Times** ,1982 **Astrology in Modern Language** Richard B. **Materijali za istorijata na Makedonija** , 1982 Exploring Our Dimensional Being Frederick R. Kipp, 2017-02-23 Throughout our lives most of us have been conditioned to view the essence of our human being and the greater realm of creation itself as somehow mysterious and unknowable In many ways it seems as if we have relegated our lives to dense matter as the central focus of our identity Exploring the possible inner or metaphysical realities can provide an orientation and detail necessary for greater understanding of ourselves and the dimensional spheres of life that connect us My lifes work has included studying the underlying structures that support all physical manifestation as well as the beings that live within and work to sustain them I believe that all inner and outer life forms and entities are dimensionally connected We are continuously interacting with them unconsciously through various levels of our being the collective consciousness of humanity our planet and the celestial bodies in the universe My experience has been that the lack of awareness of our own greater being is what hinders our ability to comprehend the universe multidimensionally In my view before entering our

present dense physical forms as humans we have progressed through many developmental cycles as did our Earth solar system and universe This book documents what I have learned about the universal creative process and dimensional human evolution from our source beginnings to the present I have tried to integrate the various accounts of the scientific mythological religious and metaphysical versions of cosmology cosmogenesis and cosmogony Exploring the inner realms of possible connections between humanity Earth and the cosmos has been a complex undertaking and journey into uncharted territory My research life experiences and clairvoyant perspectives regarding the dimensionality of all life are the basis for the writing of this book PRS Journal ,1986 **Catalog of Copyright Entries, Fourth Series** Library of Congress.
