Komor,2012-02-01 Driving is the most dangerous activity most of us will ever do In a few seconds the thin line between life and death can be crossed In this unique program based on exhaustive best practices research The Young Driver Safety Institute provides readers with the skilled guidance and critical information needed to conduct an effective home based driver s instruction course Using the new proactive predictive driving format the YDSI Workbook is filled with the forms inventories and informational handouts you need to train yourself a teen or a senior driver struggling to maintain their license There are three very unique elements of the YDSI program First we begin with the assumption that government authorities and public and private drivers training companies do not have the time or resources to actually teach more than the very minimal skills and information needed to operate a motor vehicle What happens then is that it falls to caregivers in the case of new drivers and caregivers in the case of elderly drivers working to maintain a license to provide the hundreds of hours of on road training needed For this they are almost always unequipped and must rely upon their on road experiences which have most likely been negative Most of us tend to follow the leader when driving which results in a dumbing down effect a regression toward the mean in driving technique which is generally quite low in this country Second we have developed our program working from an exhaustive and ongoing review of the relevant research and then reverse engineering targeted strategies for training drivers to avoid or prevent the major causes of car crashes Third the techniques which we have developed as outlined in this Document Pack and the accompanying Workbook are to a large degree unique in the driver s training field Working outward from the research and then honing the techniques developed from there has allowed us a unique perspective on driving and how to train drivers you will not find elsewhere This Document Pack of forms inventories and informational handouts comprises the backbone of the YDSI Proactive Predictive Driving Program It is intended to be used along with the YDSI Proactive Predictive Training Workbook Teen or Senior version and a formal drivers training course and an extended period of on road caregiver coaching for teen readers You are welcome to skip ahead at any time to the documents The discussion that follows provides a further description of the Young Driver Safety Institute and the state of drivers training today *Driverthink* Frank Miller,2009-06 *Driverthink* is not just another Go Slow Safe Driving guidebook Within its pages are reality based driving tips ideas and suggestions that can literally save your life For too long the focus on safe driving has been to expound Politically Correct driving concepts that simply don t take into account the Reality of driving a vehicle at high speed on modern roads and highways Otherwise responsible people don t suddenly shed their responsibility when they slip behind the wheel But they don t often really think about their driving either Thus the title *Driverthink* In order to be responsible safe drivers we
