Dreams Of Millennium:

Dreams Of The Millennium Mark Kingwell, 1999-04-06 In this brilliantly conceived exploration of doomsaying and revelation Mark Kingwell argues that the brink tendencies manifested by contemporary popular culture the popularity of body piercing for example or the proliferation of miracles are in fact inextricably linked to the impending fin de siècle One of Maclean's top ten non-fiction books of 1996

The Dream Millennium James White, 1974-01-01 **Dreams of Millennium** Mark Kingwell, 1999

Dream Tonight of Peacock Tails Umberto Rossi, Paolo Simonetti, 2015-09-04 Dream Tonight of Peacock Tails marks the first in-depth examination of Pynchon's debut novel which was immediately recognized as a breakthrough masterpiece The eight essays collected in the volume provide both scholars and avid readers with new and original insights into a too often underestimated work that probably even more than Gravity's Rainbow established Pynchon as one of the great masters of twentieth-century American literature This book deliberately privileges a multidisciplinary and transnational approach encompassing collaborations from a particularly international and diverse academic context As such this volume offers a multifaceted pattern of expanding investigation that tackles the novel's apparently chaotic but meticulously organized structure by rereading it in the light of recent US and European history and economics as well as by exploring its many real and imagined locations Not only are the essays brought together here revelatory of Pynchon's way of working but they also tell us something about our own ways of approaching his fiction

Dreams David Coxhead, Susan Hiller, 1976 The dream state is the one path to heightened consciousness that we all know from birth it has been used to secure creativity health foreknowledge and ecstatic insight But it is a voice of inner truth that is now being vindicated as can be learned from vastly remote cultures 110 illustrations 24 in color

The European Dream Walter Schwimmer, 2004-01-01 Europe is a strange continent Strictly speaking it is not a continent at all but a mere peninsula tacked on to Asia from where many of its first inhabitants undoubtedly came And yet despite its huge variety of features languages landscape and peoples this smallest of continents has achieved a clear cultural identity It is certainly true that Euro-speak lacks poetry and that the myths of today are mainly nationalist chauvinistic and of the No to Europe type But says the author My Europe is not the Europe that regulates the curve on bananas quarrels over subsidies for farmers or fights for places on the Council or Commission I still believe in dreams especially the European dream The author quotes Vaclav Havel Without dreaming of a better Europe we shall never build a better Europe Going back to the origins of the European idea Dr Schwimmer traces the true content of Robert Schumann's vision and shows how this must still be our inspiration But the author goes back beyond that and looks at other visions of a Federal Europe From the Hapsburg Empire to the League of Nations and Woodrow Wilson's celebrated speech in 1918 various concepts are examined carefully In propounding his dream for the future the author takes on the Euro-sceptics directly and shows how Europe must be the key to its inhabitants tackling the problems of world terrorism human rights and the internal strife of Russia and the Balkan States

Comprising dreams** Annie Denton Cridge,1871 **Reflections on Communication, Education, Scholarship, and Life** Xin-An Lu,2003-07-06 Our actions in education business and government are no longer guided by conscious ideals but by entrenched practices that are products of expediency indolence and even tyranny Inveterate and ubiquitous problems abound Students hate school Employees dislike their jobs Professors become disinclined toward teaching Boredom and procrastination are everywhere There are promotion requirements such as scholarly publications by college professors that promote nothing and benefit none except to move the person into the next nominal category along the spectrum of the organizational ladder We are plagued with senseless competitive patterns and numerical evaluations that make life a mere matter of rat race the winning of which does not uplift us into the sublimity of humanity but trammel us in the degradation of being rats Essays in this book reflect on and search for answers to widespread and inveterate problems that degenerate modern life into mere livelihood Products in sober solitude rather than in the societal cacophony most essays in the book were written during the author s doctoral studies *Plan Canada* ,2000 **All the Days of My Life: an Autobiography** Amelia E. Barr,1913 During the ten years in which Austin was their home Amelia Barr took an active part in the social life of the frontier capital and wrote in her diary vivid pictures of many Texans and local events and scenes In 1914 much of this material appeared in her autobiography *All the Days of My Life* Her accounts included women Sam Houston Indians who visited the capital and local affairs concerning the Civil War Though she did not show it outwardly Amelia Barr was a mystic and deeply religious Her life was governed by intuitions and prophetic dreams many of which she related in striking detail In 1866 the family moved to Galveston where Barr had found new employment In the yellow fever scourge of the next year Barr and three sons died leaving Mrs Barr and three daughters For a while she operated a boardinghouse on Tremont Street but when this venture failed she went to New York Tshaonline org
Emmanuel's Land S. M. Gray (authoress.),1886 **A Book of Heroic Verse** Arthur Burrell,1920 *Space for Peace* Richard Howard,2021-02-01 Science fiction might not be the first thing that springs to mind when we think of Irish literature

But in the post war period in Belfast two authors Bob Shaw and James White began producing science fiction stories eventually selling them to international markets and gaining the respect of luminaries such as Arthur C Clarke Brian Aldiss and Stanley Kubrick Although lauded in the international science fiction scene for their innovations in the genre Shaw and White s work has been relatively ignored within Irish Studies This book connects the emergence of science fiction in Belfast with the position of the city as the locus of technological development on the island of Ireland and the development of a corresponding technological imaginary Breaking new ground in the study of Irish modernity Richard Howard draws parallels between the narratives of Shaw and White and the persistent influence of historical narratives embodied by the two traditions paradigm in the region as well as exploring the figure of the alien both in science fiction and in the history of Northern Ireland He also considers the works of Shaw and White as utopian gestures against the backdrop of the Irish Troubles finding both repressive and redemptive elements therein The book makes an important contribution to the growing conversation about Irish science fiction and our understanding of modernity in Ireland **The Journeyman Barber**, 1909

Psychiatrists Sharon Packer, M.D., 2012-09-19 Film history is merged with psychiatric history seamlessly to show how and why bad depictions of mind doctors especially hypnotists occur in early film long before Hannibal Lecter burst upon the scene The German Expressionist Dr Caligari is not cinema s first psychotic charlatan but he launches the stereotype of screen psychiatrists who are sicker than their patients Many film psychiatrists function as political metaphors while many more reflect real life clinical controversies This book discusses films with diabolical drugging unethical experimentation involuntary incarceration sexual exploitation lobotomies shock schlock conspiracy theories and military medicine to show

how fact informs fantasy and when fantasy trumps reality Traditional asylum thrillers changed after hospital stays shortened and laws protected people against involuntary commitment Except for six short golden years from 1957 to 1963 portrayals of bad psychiatrists far outnumber good ones and this book tells how and why that was **Material History Review** ,2000
