## **Drifters War:**

*British Naval Trawlers and Drifters in Two World Wars* Steve Dunn, 2021-12-30 John Lambert was a renowned naval draughtsman whose plans were highly valued for their accuracy and detail by modelmakers and enthusiasts. By the time of his death in 2016 he had produced over 850 sheets of drawings many of which have never been published. These were acquired by Seaforth and this title is the fourth of a planned series of albums on selected themes reproducing complete sheets at a large page size with expert commentary and captioning. Trawlers and drifters served in both world wars in their thousands and in their tens of thousands so did their fishermen crews. Indeed these humble craft were the most numerous vessel type used by the Royal Navy in both wars and were the answer to the strategic or tactical conundrums posed by new technology of mines and submarines. In his accompanying text Steve Dunn examines the ships themselves their design construction arming operations and development and he also relates how the trawlermen and skippers from the age old fishing ports of Grimsby Hull Lowestoft and Great Yarmouth Aberdeen and Fleetwood came to be part of the Royal Navy and describes the roles they played the conditions they served under and the bravery they showed. The book takes some 30 large sheets of drawings which John Lambert completed of these vessels and divides into two sections. The first part tells how the fishing fleet came to be an integral part of the Royal Navy's pre 1914 plans and details some of the activities and actions of trawlers and drifters at war in 1914-18. And the second investigates the armed fishing fleet in the struggle of 1939-45. These wonderfully detailed drawings which are backed by a selection of photographs and a detailed complementary text offer a superb technical archive for enthusiasts and ship modellers but the book also tells a fascinating story of the extraordinary contribution the vessels and their crews made to the defeat of Germany in two world wars.

Dietz, 2014-04-01 An interplanetary smuggler is pursued by bounty hunters and plunged into battle in this novel by the New York Times bestselling author of *Andromeda's Fall*. Even smuggling has rules. The third is Death is not an option. Meet Pik Lando a con artist and a ladies man a total professional who'll chase across the galaxies for his clients and he'll usually find plenty of action and danger too. In *Drifter's War* Lando's latest scheme could set him up for life or for a particularly painful death. Chased by bounty hunters Lando finds himself dropped down in the middle of a planet smashing holy war. Big trouble loves finding him. Don't miss Lando's other adventures *Drifter* and *Drifter's Run*.

**Fishermen, the Fishing Industry and the Great War at Sea** Robb Robinson, 2019 This book examines the scale and scope of the largely forgotten role played for the Admiralty by 3000 armed fishing vessels 39 000 fishermen and many coastal communities during the Great War in the unrelenting struggle against mines and U boats. It is a story largely forgotten in the recent centenary commemorations.

Naval History of World War I Paul G Halpern, 2012-04-15 There have been a number of studies published on the activities of British and German navies during World War I but little on naval action in other arenas. This book offers for the first time a balanced history of the naval war as a whole viewed from the perspective of all participants in all major theaters. The author's

earlier examination The Naval War in the Mediterranean 1914 1918 centered on submarine activities and allied efforts to counteract this new menace With this welcome sequel he again takes the reader beyond those World War I operations staged on the North Sea Halpern s clear and authoritative voice lends a cohesiveness to this encompassing view of the Italians and Austrians in the Adriatic the Russians Germans and Turks in the Baltic and Black Seas and French and British in the Mediterranean Important riverine engagements notably on the Danube also are included along with major colonial campaigns such as Mesopotamia and the Dardanelles The role of neutral sea powers such as the Swedes in the Baltic and the Dutch in the East Indies is examined from the perspective of how their neutrality affected naval activity Also discussed is the part played by the U S Navy and the often overlooked but far from negligible role of the Japanese navy The latter is viewed in the context of the opening months of the war and in the Mediterranean during the height of the submarine crisis of 1917
