Before The Fall Soviet Cinema In The Gorbachev Years:

Before the Fall Anna M. Lawton, 2002 The book examines the fascinating world of Soviet cinema during the years of glasnost and perestroika the 1980s It shows how the reforms that shook the foundation of the Bolshevik state and affected economic and social structures have been reflected in the film industry It also presents a survey of 300 films including films that remained unscreened for decades for political reasons and the films of the new wave By 1991 the film industry had undergone a renaissance but there were already signs of impending trouble The last chapter provides a commentary on the dramatic changes which marked the beginning of democracy in Russia Perestroika now appears not as the dawn of a new era in Soviet cinema but as the last stage of development before the fall caused by the realities of the market economy

Historical Dictionary of Russian and Soviet Cinema Peter Rollberg, 2016-07-20 Russian and Soviet cinema occupies a unique place in the history of world cinema Legendary filmmakers such as Sergei Eisenstein Vsevolod Pudovkin Dziga Vertov Andrei Tarkovsky and Sergei Paradjanov have created oeuvres that are being screened and studied all over the world The Soviet film industry was different from others because its main criterion of success was not profit but the ideological and aesthetic effect on the viewer Another important feature is Soviet cinema's multinational Eurasian character while Russian cinema was the largest other national cinemas such as Georgian Kazakh and Ukrainian played a decisive role for Soviet cinema as a whole The Historical Dictionary of Russian and Soviet Cinema provides a rich tapestry of factual information together with detailed critical assessments of individual artistic accomplishments This second edition of Historical Dictionary of Russian and Soviet Cinema contains a chronology an introduction and a bibliography The dictionary section has over 600 cross referenced entries on directors performers cinematographers composers designers producers and studios This book is an excellent access point for students researchers and anyone wanting to know more about Russian and Soviet Cinema

Imaging Russia 2000 Anna M. Lawton,2004 Anna Lawton deftly tells two stories one about the evolution of Russian film since the collapse of the Soviet Union in 1991 and the other about Russian life during that same period She managed to capture a vivid portrait of Moscow of the 1990s and to remind us that the Soviet past remains omnipresent in the new Russia Russia 2000 Film and Facts is a must read for anyone who cares about Russia or about film Blair Ruble Director The Kennan Institute of the Woodrow Wilson Center

The Palgrave Handbook of Violence in Film and Media Steve Choe,2022-11-09 The chapters contained in this handbook address key issues concerning the aesthetics ethics and politics of violence in film and media In addition to providing analyses of representations of violence they also critically discuss the phenomenology of the spectator images of atrocity in international cinema affect and documentary violent video games digital infrastructures cruelty in art cinema and media and state violence among many other relevant topics The Palgrave Handbook of Violence in Film and Media updates existing studies dealing with media and violence while vastly expanding the scope of the field Representations of violence in film and media are ubiquitous but remain relatively understudied Too often they are relegated to questions of morality taste or aesthetics while

judgments about violence can themselves be subjected to moral judgment Some may question whether objectionable images are worthy of serious scholarly attention at all While investigating key examples the chapters in this handbook consider both popular and academic discourses to understand how representations of violence are interpreted and discussed They propose new approaches and raise novel questions for how we might critically think about this urgent issue within contemporary culture

The Cold War and Entertainment Television Lori Maguire, 2016-08-17 An essential dimension of the Cold War took place in the realm of ideas and culture While much work exists on cinema relatively little research has been conducted on this subject in relation to television despite the latter being a technology and popular cultural form that emerged during this period This book rectifies that absence by examining the impact of the Cold War on entertainment television and underlines the comparative aspect by studying programs from both blocs without forgetting of course the outsize impact of American television Although most of the focus is on the two main protagonists the US and the USSR chapters also consider programming from the UK Czechoslovakia Romania and both East and West Germany This book represents a contribution to the debate about the cultural Cold War through a rigorously comparative analysis of the two blocs For this reason the approach used is thematic The study begins by considering the subject of censorship and then goes on to look at the very particular case of the two Germanys A series of comparative genre studies follow including police and war variety shows and documentaries and docudramas Perhaps surprisingly the similarities are often greater than the differences between television in the two blocs
