Behaviour And Misbehaviour Explanations And Non Explanations:

Behavior and Misbehavior Nigel Walker, 1977 **Behaviour and Misbehaviour** Nigel Walker, 1977-01-01

Explanations, Accounts, and Illusions John McClure, 1991-07-25 A survey of the major viewpoints in social psychology concerning peoples self awareness explanations of their actions cognitive illusions and self misunderstandings

Explaining One's Self To Others Margaret L. McLaughlin, Michael J. Cody, Stephen John Read, 2013-12-16 To date the study of communicated explanations has been at best unsystematic There has been little recognition that many if not most explanations are eventually delivered to a hearer or hearers These potential audiences constrain the way the explanation is ultimately shaped Similarly researchers have devoted themselves to the study of accounts for the most part without an accompanying interest in the fundamental processes of event comprehension This volume is devoted to bridging the gap between these two traditions The Effectiveness of Causes Dorothy Mary Emmet, 1985-01-01

The Effectiveness of Causes presents a strong view of causation seen as an operation between participants in events and not as a relation holding between events themselves In it Emmet proposes that other philosophical views of cause and effect provide only a world of events each of which is presented as an unchanging unit Such a world she contends is a Zeno universe since transitions and movement are lost Emmet offers a more complex interpretation of the various forms of causal dependence She sees immanent causation in the mere persistence of things where effects are not temporarily separable from causes and she considers the operation of efficacious grace This is a new approach to the traditional problem and provides stimulating implications for the other metaphysical questions and for the philosophy of science *Theoretical Criminology from*

Modernity to Post-Modernity Wayne Morrison, 2014-12-18 This book incorporates many of the exciting debates in the social sciences and philosophy of knowledge concerning the issues of modernity and post modernism It sets out a new project for criminology a criminology of modernity and offers a sustained critique of theorizing without a concern for social totalities This book is designed to place criminological theory at the cutting edge of contemporary debates Wayne Morrison reviews the history and present state of criminology and identifies a range of social problems and large scale social processes which must be addressed if the subject is to attain intellectual commitment This book marks a new development in criminological texts and will serve a valuable function not only for students and academics but for all those interested in the project of understanding crime in contemporary conditions Catalog of Copyright Entries. Why Delinquency? Maurice Cusson,1983

Children, Parenthood, and Social Welfare in the Context of Developmental Psychology Michael Siegal,1985 This perceptive work examines the relationship between child development and social welfare exploring the interactions between children s moral and intellectual development their relationships with parents and peers and the socioeconomic background in which they live Drawing on many areas of developmental psychology the author presents an integrated approach which stresses that a child s self perception as well as his or her perception of the nature of parenthood and of society form a basis for morality and achievement in adolescence and early adulthood Siegal considers the implications of shifting patterns of parenthood in recent years the working mother the increasingly mobile family and he weighs the potential influence of an interventionist developmental psychology on social welfare policy
