Chasing Dragons:

Chasing Dragons Kyle Grayson, 2008-04-12 Canada has received significant attention of late for initiating a government sponsored medical marijuana program and for its flirtation with marijuana decriminalization At best these initiatives have contributed to Canada being seen as a reluctant ally by Washington and at worst as a potential threat The result of this impression is increasing American pressure to adopt more robust domestic security policies At the same time the Canadian public sees itself as holding unique values that differ from those held by its neighbour to the south Supposedly these values are best reflected by a distinctive security outlook which produces reasonable responses to potential threats a sharp contrast to the manic actions of the United States *Chasing Dragons* challenges these presumptions of difference and exposes the security politics and policy that they make possible Focusing on the issues surrounding illicit drugs Kyle Grayson examines how discourses and practices of security policy actually contribute to the construction of Canadian national and cultural identity This analysis is also relevant beyond Canada Crucially this book identifies the dangers of underestimating the centrality of race and geopolitics to civic conceptions of nationality in liberal societies *Chasing Dragons* reconsiders the meaning of security Additionally it discusses avenues for resisting the insecurity produced by liberal states in the post 9 11 world This critical approach reveals the pervasiveness of power in contemporary Canadian society how this power is hidden and the consequences for progressive social politics

The Photographer as Autobiographer Arnaud Schmitt, 2022-09-10 This book explores hybrid memoirs combining text and images authored by photographers It contextualizes this sub category of life writing from a historical perspective within the overall context of life writing before taking a structural and cognitive approach to the text image relationship While autobiographers use photographs primarily for their illustrative or referential function photographers have a much more complex interaction with pictures in their autobiographical accounts This book explores how the visual aspect of a memoir may drastically alter the reader s response to the work but also how in other cases the visual parts seem disconnected from the text or underused

Dragon Orb: Aurora Mark Robson, 2012-10-25 Four dragonriders on a mission to save their world Elian and his dawn dragon Aurora lead the search for the fourth and final orb Pursued by night dragons and helped by a WWI airman the four dragonriders are drawn into a huge aerial battle between all the dragon enclaves The ultimate fate of dragonkind hangs by a thread To restore order a terrible price must be paid

Liza: A Fake Relationship Dragon Romance Shelley Munro, 2020-09-19 A dragon shifter and a human woman meet Two worlds collide The encounter shouldn t have occurred and the dragon species must battle the consequences Elizabeth Carrington single mother with a daughter and an obnoxious ex who refuses to leave without a chunk of her inheritance An aspiring writer she glimpses the unbelievable during a research trip and when she awakens after the resulting car crash she isn t in England any longer Not that she understands this calamity because a knock to the head has stripped her memories She is a woman with no past and no perception of dragons or their danger to her Dragon shifter Leonidas Champion of the

Columbia University's Introduction to Data Science class tells you what you need to know. In many of these chapter-long lectures, data scientists from companies such as Google, Microsoft, and eBay share new algorithms, methods, and models by presenting case studies and the code they use. If you're familiar with linear algebra, probability, and statistics and have programming experience, this book is an ideal introduction to data science. Topics include: Statistical inference, exploratory data analysis, and the data science process. Algorithms: Spam filters, Naive Bayes, and data wrangling. Logistic regression. Financial modeling. Recommendation engines and causality. Data visualization. Social networks and data journalism. Data engineering. MapReduce. Pregel and Hadoop. Doing Data Science is collaboration between course instructor Rachel Schutt, Senior VP of Data Science at News Corp, and data science consultant Cathy O'Neil, a senior data scientist at Johnson Research Labs who attended and blogged about the course.
