Americas Entry Into World War One:

Nothing Less Than War Justus D. Doenecke, 2011-04-22 When war broke out in Europe in 1914 political leaders in the United States were swayed by popular opinion to remain neutral yet less than three years later the nation declared war on Germany In *Nothing Less Than War A New History of America's Entry into World War I* Justus D Doenecke examines the clash of opinions over the war during this transformative period and offers a fresh perspective on America's decision to enter World War I Doenecke reappraises the public and private diplomacy of President Woodrow Wilson and his closest advisors and explores in great depth the response of Congress to the war He also investigates the debates that raged in the popular media and among citizen groups that sprang up across the country as the U S economy was threatened by European blockades and as Americans died on ships sunk by German U boats The decision to engage in battle ultimately belonged to Wilson but as Doenecke demonstrates Wilson's choice was not made in isolation *Nothing Less Than War* provides a comprehensive examination of America's internal political climate and its changing international role during the seminal period of 1914-1917

Fit for America Matthew Lindaman, 2018-06-21 *Fit for America* is at once an intellectual biography of Major John L Griffith one of the preeminent intercollegiate athletics administrators of the twentieth century and an in depth look at how athletics shaped national military preparedness in a time of war and anticommunist sentiment Lindaman traces Griffith's forty year career one that spanned both world wars and included his appointment as the first Big Ten commissioner from 1922 until 1945 Griffith also served as NCAA president in the 1930s and later became the secretary treasurer during World War II Throughout his

career he worked tirelessly to advance the role and importance of collegiate sports on a regional and national level In an era of heightened fears of communism Griffith saw intercollegiate athletics as a way to prepare young men to become fit disciplined military recruits Griffith also founded his own publication the Athletic Journal in 1922 in which he published opinion pieces and solicited the opinions of other leading coaches and administrators nationwide Through these pages Lindaman explores not only Griffith's philosophy but also the emergence of a coaching and athletic administration network Drawing on voluminous primary source material and the many writings Griffith left behind Fit for America brings long overdue attention to a figure who was instrumental in shaping the world of American intercollegiate sports

Denying the Holocaust Deborah E. Lipstadt, 2012-12-18 The denial of the Holocaust has no more credibility than the assertion that the earth is flat Yet there are those who insist that the death of six million Jews in Nazi concentration camps is nothing but a hoax perpetrated by a powerful Zionist conspiracy Sixty years ago such notions were the province of pseudohistorians who argued that Hitler never meant to kill the Jews and that only a few hundred thousand died in the camps from disease they also argued that the Allied bombings of Dresden and other cities were worse than any Nazi offense and that the Germans were the true victims of World War II For years those who made such claims were dismissed as harmless cranks operating on the lunatic fringe But as time goes on they have begun to gain a hearing in respectable arenas and now in the first full scale history of Holocaust denial Deborah Lipstadt shows how despite tens of thousands of living witnesses and vast amounts of documentary evidence this irrational idea not only has continued to gain adherents but has become an international movement with organized chapters independent research centers and official publications that promote a revisionist view of recent history Lipstadt shows how Holocaust denial thrives in the current atmosphere of value relativism and argues that this chilling attack on the factual record not only threatens Jews but undermines the very tenets of objective scholarship that support our faith in historical knowledge Thus the movement has an unsuspected power to
