Catalog Division, 1919 **Baroque Music** Nicholas Anderson, 1994 The Baroque Style in music emerged during the late sixteenth

century and lasted well into the eighteenth Italy was the source of this new artistic impulse which soon spread across Europe and the period was one of striking contrasts and innovations Few other eras witnessed such a profusion of new forms opera oratorio cantata sonata and concerto Although Baroque music contained distinct national idioms fundamental values were shared by all the leading creative figures of the time One such value was a declared intent to move the passions to stir emotions those emotions appropriate to the two great contemporary patrons of music the Church and the nobility Ecclesiastical commissions encouraged composers to depict suffering pathos and elation while secular and court patronage gave them the opportunity to evoke splendor and opulence Nicholas Anderson a leading authority on Baroque music and a well known scholar and broadcaster relates musical history to the cultural milieu of Church and court as well as to public patronage He considers both major figures such as Bach Handel and Vivaldi and lesser known artists whose music is now being avidly collected and explored Telemann Charpentier and Leclair among others The Baroque period one of the richest in Western music provided the foundation for all subsequent musical development Its enduring strength is amply attested by the popularity of today s authentic performances and recordings Now this growing interest finds its proper complement in a complete and authoritative account of the Baroque heritage
