Barbed Wire Reviel Netz, 2009-11-10 The history of animals and humans as seen through barbed wire In this original and controversial book historian and philosopher Reviel Netz explores the development of a controlling and pain inducing technology barbed wire Surveying its development from 1874 to 1954 Netz describes its use to control cattle during the colonization of the American West and to control people in Nazi concentration camps and the Russian Gulag Physical control over space was no longer symbolic after 1874 This is a history told from the perspective of its victims With vivid examples of the interconnectedness of humans animals and the environment this dramatic account of barbed wire presents modern history through the lens of motion being prevented Drawing together the history of humans and animals Netz delivers a compelling new perspective on the issues of colonialism capitalism warfare globalization violence and suffering Theoretically sophisticated but written with a broad readership in mind *Barbed Wire* calls for nothing less than a reconsideration of modernity

Auger, 2005 Little is known of the internment of German prisoners of war civilians and merchant seamen on Canadian soil during the Second World War In the midst of the most destructive conflict in human history almost 40 000 Germans were detained in twenty five permanent internment camps and dozens of smaller work camps located across Canada Five of these permanent camps were located on the southern shores of the St Lawrence River at Farnham Grande Ligne Ile aux Noix Sherbrooke and Sorel in the province of Quebec Martin Auger's book provides a fascinating insight into the internment operation in southern Quebec The study examines the organization and day to day affairs of internment camps and offers an in depth analysis of the experience of the German prisoners who inhabited these camps The author shows how the pressures of internment such as restricted mobility sexual deprivation social alienation and the lack of material comfort created important psychological and physical strains on inmates In response Canadian authorities introduced labour projects and educational programs to uphold morale to thwart internal turmoil and to prevent escapes These initiatives also aimed to expose German prisoners to the values of a democratic society and prepare their postwar reintegration The author concludes that Canada abided with the provisions of the Geneva Convention and that its treatment of German prisoners was humane *Prisoners of the Home Front* sheds light on life behind Canadian barbed wire The study fills an important void in our knowledge of the Canadian home front during the Second World War and furthers our understanding of the human experience in times of war **School and Home Education**, 1919
