Divinity Incarnated:

Aryan Theory of Divine Incarnations Bhagnánlál R. Bádsháh,1892 The Book Of Heaven (Volumes 1 to 36) Luisa Piccarreta,2023-03-08 In every act of one who lives in the Divine Volition he pronounces the Fiat there and forms of it so many divine lives How he gives himself into the power of the creature and lets her do that which she wants with him Difference that passes between one who lives in him and between one who is resigned I am always between the arms of the divine Fiat and oh how I feel the need of his life that breathes beats circulates in my poor soul Without him I feel that all dies for me the light dies sanctity strength even heaven itself as if it might not belong to me anymore Instead as I feel his life all rearises in me The light re arises with its beauty that vivifies purifies and sanctifies My own Jesus re arises with all his works Heaven re arises which the holy Volition encloses within my soul as within a sanctuary in order to make it all mine So that if I live in his Will everything is mine and nothing should be missing for me **The Original Atheists** S.T. Joshi,2014-01-07 This is the first anthology ever published to feature the writings of leading eighteenth century thinkers on the subjects of atheism religion freethought and secularism Editor S T Joshi has compiled notable essays by writers from Germany France England and early America The contributors include Denis Diderot a principal author of the multivolume French Encyclop die Baron d Holbach System of Nature 1770 Voltaire Philosophical Dictionary David Hume Immanuel Kant Thomas Jefferson James Madison Ethan Allen Thomas Paine and other lesser known thinkers With a comprehensive introduction providing the intellectual and cultural context of the essays this outstanding compilation will be of interest to students of philosophy religious studies and eighteenth century intellectual history Incarnate Earth Matthew Eaton,2023-03-10 Incarnate Earth reimagines the doctrine of Incarnation by extending the unity between Creator and creation beyond Jesus to the entire world In dialogue with contemporary theologies of deep incarnation and the philosophy of Emmanuel Levinas the author argues that the face of Christ is encountered in the cruciform demand for justice embodied in the creaturely finitude and vulnerability that grounds ethics Central to this vision is a recognition that the religious role functions at the heart of Jesus life the revelation of God and the redemption of the world are performed throughout the physical world irreducible to humanity or one heroic representative of the species Thus the human encounters the divine Christ in and as the face of any vulnerable thing animal vegetal elemental or otherwise not as a transcendent being mediated through humanity The radical nature of this reimagination necessitates renewed discussions of ecological and animal ethics calling for compassionate care for all vulnerable bodies insofar as this is possible It will be of interest to scholars of Christian theology and the philosophy of religion particularly those focused on ecotheology religious naturalism and environmental ethics American Heretics Jerome E. Copulsky,2024-10-01 A penetrating account of the religious critics of American liberalism pluralism and democracy from the Revolution until today A chilling consideration of persistent mutations of American thought still threatening our pluralist democracy Kirkus Reviews starred review The conversation about the proper role of religion in American public life

often revolves around what kind of polity the Founders of the United States envisioned. Advocates of a Christian America claim that the Framers intended a nation whose political values and institutions were shaped by Christianity; secularists argue that they designed an enlightened republic where church and state were kept separate. Both sides appeal to the Founding to justify their beliefs about the kind of nation the United States was meant to be or should become. In this book, Jerome E. Copulsky complicates this ongoing public argument by examining a collection of thinkers who, on religious grounds, considered the nation's political ideas illegitimate, its institutions flawed, and its church-state arrangement defective. Beholden to visions of cosmic order and social hierarchy, rejecting the increasing pluralism and secularism of American society, they predicted the collapse of an unrighteous nation and the emergence of a new Christian commonwealth in its stead. By engaging their challenges and interpreting their visions, we can better appreciate the perennial temptations of religious illiberalism as well as the virtues and fragilities of America's liberal democracy.

This book introduces the special dynamics of women and their close relationships with the gift in both past and contemporary religious settings. Written from a cross-cultural perspective, it challenges depictions of women's roles in religion where they have been relegated to compliance with specifically designated gendered attributes. The different chapters contest the resultant stereotypes that deny women agency. Each chapter describes women as engaged in an aspect of religion, from that of ritual specialists to benefactors and patrons or even innovators. The volume examines topics such as sainthood and sacrifice so as to refine these ideas in constructive ways that do not devalue women. It also examines the meaning of the term gift today, embracing the term in both figurative and literal ways. Such a collection of diverse women's writings and activities provides a significant contribution to their quest for recognition and also suggests ways this can be understood and realized today.
