Apache Pride:

Apache Pride Jeanie P. Johnson, 2016-03-11 Kill the Indian and save the man is the motto given by the founder of a school in 1879 who believed that if he could erase the culture religion and identity from Indian children teaching them how to function in a white man's world they could become upstanding citizens of the United States However Kanton a 16 year old Apache Indian had other ideas He vowed never to bend to the white man's world even though to please his father he agreed to go to the school and at least learn to read write and learn the English language When he escapes the walls of the school and gets involved in an adventure to find the lost Apache gold mine in Arizona he starts to discover that clinging to his convictions is not as cut and dried as he believed it would be He struggles with his own Indian pride when he ends up falling in love with a white woman whom he knows he can never marry because of the fact that he is an Indian and the woman he loves would be shunned by her own people if she became his wife Wanting to protect her from the shame of marrying an Indian while loving her beyond reason is a struggle that makes him question his own convictions and what love is really all about *Apache Pride* Joyce Adams, 1999 After escaping into the wilderness to flee the unwanted advances of a soldier Regan runs into a ruggedly handsome Apache Knowing she could not abandon him she nursed his wounds only to discover her heart was aching for someone to call her own **The Apache Indians** Helge Ingstad, 2004-01-01 Ingstad traveled to Canada where he lived as a trapper for four years with the Chipewyan Indians The Chipewyans told him tales about people from their tribe who traveled south never to return He decided to go south to find the descendants of his Chipewyan friends and determine if they had similar stories In 1936 Ingstad arrived in the White Mountains and worked as a cowboy with the Apaches His hunch about the Apaches northern origins was confirmed by their stories but the elders also told him about another group of Apaches who had fled from the reservation and were living in the Sierra Madres in Mexico Ingstad launched an expedition on horseback to find these lost people hoping to record more tales of their possible northern origin but also to document traditions and knowledge that might have been lost among the Apaches living on the reservation

New Natures Dolly Jørgensen, Finn Arne Jørgensen, Sara B. Pritchard, 2013-07-08 *New Natures* broadens the dialogue between the disciplines of science and technology studies STS and environmental history in hopes of deepening and even transforming understandings of human nature interactions The volume presents richly developed historical studies that explicitly engage with key STS theories offering models for how these theories can help crystallize central lessons from empirical histories facilitate comparative analysis and provide a language for complicated historical phenomena Overall the collection exemplifies the fruitfulness of cross disciplinary thinking The chapters follow three central themes ways of knowing or how knowledge is produced and how this mediates our understanding of the environment constructions of environmental expertise showing how expertise is evaluated according to categories categorization hierarchies and the power afforded to expertise and lastly an analysis of networks mobilities and boundaries demonstrating how knowledge is

both diffused and constrained and what this means for humans and the environment Contributors explore these themes by discussing a wide array of topics including farming forestry indigenous land management ecological science pollution trade energy and outer space among others The epilogue by the eminent environmental historian Sverker Sorlin views the deep entanglements of humans and nature in contemporary urbanity and argues we should preserve this relationship in the future Additionally the volume looks to extend the valuable conversation between STS and environmental history to wider communities that include policy makers and other stakeholders as many of the issues raised can inform future courses of action
