**Apartheid in Crisis** Mark A. Uhlig,1986      **Crisis in S. Africa** John S. Saul,Stephen Gelb,1986      **Apartheid in Crisis** Anti-apartheid Movement,1986      **The Apartheid State in Crisis** Robert M. Price,1991 Despite the considerable attention paid to South Africa in recent years this text is unique in providing a comprehensive analysis of South Africa s politics through the 1980 s Robert Price argues that the apparent stability of South Africa s apartheid regime has masked a profound political transformation underway since 1975 The work examines how government policy economic development domestic opposition and international actors have gradually but inexorably eroded the foundation of white political power Price elucidates the dynamic relationship between these factors and their combined role in altering the political substructure underlying South Africa s official political system He provides a novel framework for assessing the likely mode of political transition in the 1990 s and draws lessons from the South African case for our understanding of political transformation worldwide      **The South African Crisis** S. S. Ramphal,1988      **End of the Beginning** S. S. Ramphal,1985      [Southern Africa in Crisis](#) ,1988-01-01      [The Crisis in South Africa](#) John S. Saul,Stephen Gelb,1981      **The Crisis in South Africa** Iueun Griffiths,1987      [Crisis in South Africa](#) ,1985      *How Long Will South Africa Survive?* Richard William Johnson,1977-12-01      **South Africa, Apartheid in Crisis** Raymond Suttner,1990      **Apartheid in Crisis** Anti-apartheid Movement,1986      **Crisis in Southern Africa** Anti-apartheid Movement,1977      *The Cape of Storms* Anthony Hazlitt Heard,1990 A personal account of the National Party s rise to power and of the political and human consequences in South Africa s recent history      **The Legacies of Law** Jens Meierhenrich,2008-10-13 Focusing on South Africa during the period 1650 2000 this book examines the role of law in making democracy work in changing societies The Legacies of Law sheds light on the neglected relationship between path dependence and the law Meierhenrich argues that legal norms and institutions even illiberal ones have an important and hitherto undertheorized structuring effect on democratic outcomes Under certain conditions law appears to reduce uncertainty in democratization by invoking common cultural backgrounds and experiences In instances where interacting adversaries share qua law reasonably convergent mental models transitions from authoritarian rule are shown to be less intractable Meierhenrich s historical analysis of the evolution of law and its effects in South Africa during the period 1650 2000 compared with a short study of Chile from 1830 1990 shows how and when legal norms and institutions serve as historical causes to both liberal and illiberal rule      *The Crisis of South African Foreign Policy* Matthew Graham,2015 The emergence of a new democratic South Africa under Nelson Mandela was regarded as a high watermark for international ideals of human rights and democracy Much was expected of the ANC in power particularly that it would be able to translate its ideals into a coherent foreign policy for the African continent Yet its foreign policy since 1994 has been mired in accusations of incoherence contradiction and failure Here based on extensive archival research and interviews Matthew Graham offers new ways of interpreting South Africa s foreign policy by investigating the

continuities and discontinuities of the ANC's international relations from exile to political power Charting the political intrigues during the country's transition from apartheid and the subsequent influences on Presidents Mandela and Mbeki *The Crisis of South African Foreign Policy* makes a vital contribution to our understanding of why post apartheid South Africa has failed to lead Africa on the world stage Bloomsbury Publishing

**Everyday Border Struggles** Thom Tyerman, 2021-07-29 This book examines everyday borders in the UK and Calais as sites of ethical political struggle between segregation and solidarity In an age of mobility borders appear to be everywhere Encountered more and more in our everyday lives borders locally enact global divisions and inequalities of power wealth and identity Critically examining everyday borders in the UK and Calais Tyerman shows them to be sites of ethical political struggle From the Calais jungle to the UK's hostile environment it shows how borders are carried out through practices of everyday segregation that make life for some but not others unliveable At the same time it reveals the practices of everyday solidarity with which people on the move confront these segregating borders This book sheds light on the complex ways borders entrench themselves in our lives the complicity of ordinary people in their enactment and the seductive power they continue to assert over our political imaginations Of general interest to scholars and students working on issues of migration borders citizenship and security in international politics sociology and philosophy this book will also appeal to practitioners in areas of migrant rights asylum advocacy anti detention or deportation campaigning human rights direct democracy and community organising
