## **Apocalypse Of Silence The:**

*The Apocalypse of Silence* William P. Haynes, 2005-02-21 Semjaza The Apocalypse of Silence is the second book in the CURSE OF MESPHESTO S SEED trilogy The apocalypse chronicles the death of Elliott and the birth of Lifthrasir It reveals the plans of Mesphesto the trial of Mark Talbot and Josh Riley and the rise of The Cult of the Wayward Souls as the new age religion of choice Reviewers called book one a fantastic apocalyptic thriller a hellish battle between good and evil a haunting journey The journey truly begins in book two with its jinns doppelgangers necromancy Roman gods and a certain devil named Michael Orcus with a penchant for beautiful women The landscapes of hell are more brutal the action more furious and this time only Nox the goddess of death and her acolyte the black cat can decide the final outcome **Silence, Music, Silent Music** Nicky Losseff, 2017-07-05 The contributions in this volume focus on the ways in which silence and music relate contemplate each other and provide new avenues for addressing and gaining understanding of various realms of human endeavour The book maps out this little explored aspect of the sonic arena with the intention of defining the breadth of scope and to introduce interdisciplinary paths of exploration as a way forward for future discourse Topics addressed include the idea of silent music in the work of English philosopher Peter Sterry and Spanish Jesuit St John of the Cross the apparently paradoxical contemplation of silence through the medium of music by Messiaen and the relationship between silence and faith the aesthetics of Susan Sontag applied to Cage s idea of silence silence as a different means of understanding musical texture ways of thinking about silences in music produced during therapy sessions as a form of communication music and silence in film including the idea that music can function as silence and the function of silence in early chant Perhaps the most all pervasive theme of the book is that of silence and nothingness music and spirituality a theme that has appeared in writings on John Cage but not in a broader sense in scholarly writing The book reveals that unexpected concepts and ways of thinking emerge from looking at sound in relation to its antithesis encompassing not just Western art traditions but the relationship between music silence the human psyche and sociological trends ultimately providing deeper understanding of the elemental places both music and silence hold within world philosophies and fundamental states of being **Silence Music Silent Music** will appeal to those working in the fields of musicology psychology of religion gender studies aesthetics and philosophy **To the end of the third century** Louis Duchesne, 1909 [James Joyce's Silences](#) Jolanta Wawrzycka, Serenella Zanotti, 2018-05-31 In this landmark book leading international scholars from North America Europe and the UK offer a sustained critical attention to the concept of silence in Joyce s writing Examining Joyce s major works including *Ulysses* *Portrait of the Artist as a Young Man* and *Finnegans Wake* the critics present intertextual and comparative interpretations of Joyce s deployment of silence as a complex overarching narratological strategy Exploring the many dimensions of what is revealed in the absences that fill his writing and the different roles aesthetic rhetorical textual and linguistic that silence plays in Joyce s texts *James Joyce s Silences* opens up important new avenues of scholarship on the
