Apocryphal Texts And Traditions In Anglo Saxon England:

Apocryphal Texts and Traditions in Anglo-Saxon England Kathryn Powell, D. G. Scragg, 2003 Studies and editions of Anglo Saxon apocryphal materials filling a gap in literature available on the boundaries between apocryphal and orthodox in the period Apocrypha and apocryphal traditions in Anglo Saxon England have been often referred to but little studied This collection fills a gap in the study of pre Conquest England by considering what were the boundaries between apocryphal and orthodox in the period and what uses the Anglo Saxons made of apocryphal materials The contributors include some of the most well known and respected scholars in the field The introduction written by Frederick M Biggs one of the principal editors of Sources of Anglo Saxon Literary Culture expertly situates the essays within the field of apocrypha studies The essays themselves cover a broad range of topics both vernacular and Latin texts those available in Anglo Saxon England and those actually written there and the uses of apocrypha in art as well as literature Additionally the book includes a number of completely new editions of apocryphal texts which were previously unpublished or difficult to access By presenting these new texts along with the accompanying range of essays the collection aims to retrieve these apocryphal traditions from the margins of scholarship and restore to them some of the importance they held for the Anglo Saxons Contributors DANIEL ANLEZARK FREDERICK M BIGGS ELIZABETH COATSWORTH THOMAS N HALL JOYCE HILL CATHERINE KARKOV PATRIZIA LENDINARA AIDEEN O LEARY CHARLES D WRIGHT

Sources of Anglo-Saxon Literary Culture Frederick M. Biggs, 2007 This little volume brings up to date the entries on apocrypha first published in Sources of Anglo Saxon Literary Culture A Trial Version The entries address almost eighty separate apocryphal texts and are supported by a bibliography of over 480 titles

A Companion to Ælfric Hugh Magennis, Mary Swan, 2009-06-02 This collection provides a new authoritative and challenging study of the life and works of Ælfric of Eynsham the most important vernacular religious writer in the history of Anglo Saxon England The contributors include almost all of the key Ælfric scholars working today and some important newer voices Each of the chapters is a cutting edge piece of work which addresses one aspect of Ælfric's works or career The chapters are organised topically rather than by chronology genre or biography and between them cover the entire Ælfrician corpus and the major contextual issues consideration of Ælfric's Latin writings is carefully integrated with that of his Old English works Ælfric studies are currently a central element of Anglo Saxon studies but while to date there has been a great deal of detailed work on some aspects of Ælfric this collection provides the first overview Contributors Hugh Magennis Joyce Hill Christopher A Jones Mechthild Gretsch M R Godden Catherine Cubitt Thomas N Hall Robert K Upchurch Mary Swan Clare A Lees Gabriella Corona Kathleen Davis Jonathan Wilcox Aaron J Kleist and Elaine Treharne

King Harold II and the Bayeux Tapestry Gale R. Owen-Crocker, 2005 Harold II is chiefly remembered today perhaps unfairly for the brevity of his reign and his death at the Battle of Hastings The papers collected here seek to shed new light on the man and his milieu before and after that climax They explore the long career and the dynastic network behind Harold Godwinsson's

accession on the death of King Edward the Confessor in January 1066 looking in particular at the important questions as to whether Harold's kingship was opportunist or long planned a usurpation or a legitimate succession in terms of his Anglo-Scandinavian kinships. They also examine the posthumous legends that Harold survived Hastings and lived on as a religious recluse. The essays in the second part of the volume focus on the Bayeux Tapestry bringing out the small details which would have resonated significantly for contemporary audiences both Norman and English to suggest how they judged Harold and the other players in the succession drama of 1066. Other aspects of the Tapestry are also covered: the possible patron and locations the Tapestry was produced for, where and how it was designed, and the various sources artistic and real employed by the artist.

GALE OWEN CROCKER is Professor of Anglo-Saxon Culture at the University of Manchester. [A Companion to Medieval Poetry](#) Corinne Saunders, 2010-04-12

MEDIEVAL POETRY In a series of original essays from leading literary scholars this Companion offers a chronological sweep of medieval poetry from Old English to the great genres of romance, narrative and alliterative poetry of the 15th century. Beginning in the Anglo-Saxon period, the volume explores the Old English language and its alliterative tradition before moving on to examine the genres of heroic, devotional, wisdom and epic poetry, culminating in a discussion of arguably the founding text of the English literary canon, the great epic *Beowulf*. In part two, the Companion moves on to discuss the linguistic and social changes brought about as a result of the Norman Conquest, exploring how this influenced the development of literary genres. Essays probe the shifts and continuities in genres such as lyric, chronicle and dream vision, and the emergence of new genres such as popular and courtly romance and drama. A particular focus is the continuation of the alliterative tradition from the Anglo-Saxon period to the fifteenth century. A series of chapters on major authors including Chaucer, Gower and Langland provide fresh approaches to reading and studying key texts such as *The Canterbury Tales*, *Piers Plowman* and *Sir Gawain and the Green Knight*. Finally, the collection examines cultural change at the close of the medieval period and the variety of literature produced in the long fifteenth century, including writing by and for women, Scots poetry, clerical and courtly works, and secular and sacred drama.

Enoch from Antiquity to the Middle Ages, Volume I John C. Reeves, Annette Yoshiko Reed, 2018-02-22

Across the ancient and medieval literature of Judaism, Christianity and Islam, one finds references to the antediluvian sage Enoch. Both the *Book of the Watchers* and the *Astronomical Book* were long known from their Ethiopic versions, which are preserved as part of the *Mashafa Henok*. *Nabiy Book of Enoch*, the Prophet's Enochic compendium known in the West as *1 Enoch*. Since the discovery of Aramaic fragments among the Dead Sea Scrolls, these books have attracted renewed attention as important sources for ancient Judaism. Among the results has been the recognition of the surprisingly long and varied tradition surrounding Enoch. Within *1 Enoch* alone, for instance, we find evidence for intensive literary creativity. This volume provides a comprehensive set of core references for easy and accessible consultation. It shows that the rich afterlives of Enochic texts and traditions can be studied more thoroughly by scholars of Second Temple Judaism and early Christianity, as well as by scholars of late antiquity.

and medieval religions Specialists in the Second Temple period the era in which Enochic literature first appears will be able to trace or discount the survival of Enochic motifs and mythemes within Jewish literary circles from late antiquity into the Middle Ages thereby shedding light on the trajectories of Jewish apocalypticism and its possible intersections with Jewish mysticism Students of Near Eastern esotericism and Hellenistic philosophies will have further data for exploring the origins of gnosticism and its possible impact upon sectarian currents in Judaism Christianity and Islam Those interested in the intellectual symbiosis among Jews Christians and Muslims in the Middle Ages and especially in the transmission of the ancient sciences associated with Hermeticism e g astrology theurgy divinatory techniques alchemy angelology demonology will be able to view a chain of tradition reconstructed in its entirety for the first time in textual form In the process we hope to provide historians of religion with a new tool for assessing the intertextual relationships between different religious corpora and for understanding the intertwined histories of the major religious communities of the ancient and medieval Near East

[The Many Faces of Christ](#) Philip Jenkins,2015-10-13 In *The Many Faces of Christ* religious historian Philip Jenkins refutes our most basic assumptions about the Lost Gospels and the history of Christianity He reveals that hundreds of alternative gospels were never lost but survived and in many cases remained influential texts both outside and within the official Church We are taught that these alternative scriptures such as the Gospels of Thomas Mary or Judas represented intoxicating daring and often bizarre ideas that were wholly suppressed by the Church in the fourth and fifth centuries In bringing order to the tumult the Church canonized only four gospels Matthew Mark Luke and John The rest according to this standard account were lost destroyed or hidden But more than a thousand years after Emperor Constantine converted to Christianity and made his Roman Empire do the same the Christian world retained a much broader range of scriptures than would be imaginable today

Britons in Anglo-Saxon England N. J. Higham,2007 The question of the British presence in Anglo Saxon England readdressed by archaeologists historians linguists and place name specialists The number of native Britons and their role in Anglo Saxon England has been hotly debated for generations the English were seen as Germanic in the nineteenth century but the twentieth saw a reinvention of the German past Today the scholarly community is as deeply divided as ever on the issue place name specialists have consistently preferred minimalist interpretations privileging migration from Germany while other disciplinary groups have been less united in their views with many archaeologists and historians viewing the British presence potentially at least as numerically significant or even dominant The papers collected here seek to shed new light on this complex issue by bringing together contributions from different disciplinary specialists and exploring the interfaces between various categories of knowledge about the past They assemble both a substantial body of evidence concerning the presence of Britons and offer a variety of approaches to the central issues of the scale of that presence and its significance across the seven centuries of Anglo Saxon England NICK HIGHAM is Professor of Early Medieval and Landscape History at the University of Manchester Contributors RICHARD COATES MARTIN GRIMMER
