exploration As we approach the new series of Artemis missions the book looks forward applying what Apollo taught us to the scientific exploration that will be conducted in the future With each breakthrough Apollo created the foundations not only for lunar missions but for any space exploration activity that followed This book will show you how it did so and what s next

Exploring the Moon, the Apollo Expeditions David Harland,1999 **Apollo to the Moon** Teasel E.

Muir-Harmony,2018 A celebration of the 50th anniversary of NASA s Apollo missions to the moon this narrative uses 50 key artifacts from the Smithsonian archives to tell the story of the groundbreaking space exploration program Bold photographs fascinating graphics and engaging stories commemorate the 20th century s most important space endeavor NASA s Apollo program to reach the moon From the lunar rover and an emergency oxygen mask to space food and moon rocks it s a carefully curated array of objects complete with intriguing back stories and profiles of key participants This book showcases the historic space exploration program that landed humans on the moon advanced the world s capabilities for space travel and revolutionized our sense of humanity s place in the universe Each historic accomplishment is symbolized by a different object from a Russian stamp honoring Yuri Gagarin and plastic astronaut action figures to the Apollo 11 command module piloted by Michael Collins as Armstrong and Aldrin made the first moonwalk together with the monumental art inspired by these moon missions Throughout *Apollo to the Moon* also tells the story of people who made the journey possible the heroic astronauts as well as their supporters including President John F Kennedy newsman Walter Cronkite and NASA scientists such as Margaret Hamilton Publisher s website *Destination Moon* Rod Pyle,2005-11-01 The Apollo space program was the largest technological undertaking of all time and led to the greatest adventure of the 20th century Born of the cold war it was moved forward by the passion of 100 000 workers and 20 billion over ten years Over that time 12 courageous individuals stepped out onto the lunar surface and thus changed the history of humankind changing us into a space faring civilization And then it was gone Three years 9 missions six men on the surface of the moon They explored they experimented and they came home Here in one volume are the transcribed voices of the participants with expert commentary and retrospective reminiscences explained and put into context From the triumphs of Neil Armstrong to Buzz Aldrin to the near disaster of Apollo 13 Houston we ve got a problem it s all here the science the adventure the glory the letdown One of the great stories of humankind s reaching for the stars *Eight Years to the Moon* Nancy Atkinson,2019-07-02 A Behind the Scenes Look At NASA s incredible Journey to the Moon Space journalist and insider Nancy Atkinson weaves together the riveting story of NASA s mission to complete the greatest adventure on which humankind ever embarked This incredible account is a keepsake celebrating some of the most important and dramatic events in modern history Told through over 60 personal interviews and oral histories as well as personal photographs this tribute to the men and women who made the Apollo 11 mission a reality chronicles the highs and lows that accompanied the race to the Moon the devastating flash fire that killed the crew of Apollo 1 the awe of those who saw their years in the making contributions to space exploration blast off from

Cape Canaveral the knuckle biting descent of Apollo 11 to the lunar surface a near catastrophic event on the crew's flight home the infectious excitement and jubilation across the world after the astronauts returned safely to Earth These little known stories of the dedicated engineers mathematicians and scientists in the 1960s reveal the hows of the Apollo missions and bring to life the wonder and excitement of humanity's first steps on the Moon [Apollo Moon Missions](#) Billy Watkins,2006 In 1961 President John F Kennedy issued a challenge the United States would land a man on the moon and return him safely to Earth before the end of the decade It seemed like an impossible task and one that the Russians who had launched the first satellite and put the first man into Earth orbit would surely perform before us The ingenuity passion and sacrifice of thousands of ordinary men and women from all walks of life enabled the space program to meet this extraordinary goal In all six crews would land on the moon before Congress withdrew financial backing for the program This is the story of those men and women who worked behind the scenes without fanfare or recognition to make these missions a success Thirty years later they still speak of Apollo with pride sometimes even awe After Apollo moonwalker John Young told journalist Billy Watkins in a 1999 interview that nobody knows anything about the people who helped make those flights so successful Watkins made it his mission to identify the unsung heroes and learn their stories His subjects include BLJulian Scheer NASA publicist Argued for and won the inclusion of a television camera on Apollo 11 enabling Armstrong's walk on the moon to be broadcast and recorded for posterity BLSonny Morea lead designer of the Lunar Rover BLHugh Brown one of the few African Americans who worked on the Apollo program helped monitor for Russian submarines trying to jam NASA communication during launches and later went on to become head of the Federal Reserve Bank in Atlanta BLJoAnn Morgan launch control One of the few women involved in the space program Morgan was designated the lightning specialist Her knowledge was crucial when the Apollo 12 spacecraft was struck by lightning only seconds after liftoff nearly causing an abort She was one of the few specialists allowed in the firing room during liftoff BLJoan Roosa widow of Apollo 14 astronaut Stuart Roosa talks about the sacrifices of the families and their devotion to The Program BLJoe Schmitt veteran suit technician was responsible for making sure the suits were leak proof and hooked up correctly knowing any mistake would mean instant death in space BLJoseph Laitin who came up with the idea for the Apollo 8 astronauts to read the first ten verses of Genesis during their Christmas Eve television broadcast from the moon BLClancy Hatelberg the Navy diver who plucked the first humans to walk on the moon from the Pacific Ocean after the Apollo 11 landing **The Apollo Missions** David Baker,2018-12-12 Long has the moon captured the imagination of world from science fiction to astrology howling wolves to lunar calendars To President John F Kennedy however the moon was a destination To put a man on the moon would be to challenge Russia's recent achievements in space exploration and assert the US's technological prowess on the world stage As we know the mission was a success and yet while everyone is familiar with Neil Armstrong's iconic line and his bold tread on the moon's dusty surface few are privy to the events leading up to this moment Former NASA engineer David Baker

gives a behind the scenes account of the space race including the political impetus behind the mission the Apollo 8 s lunar orbit on Christmas Eve as well as some of the tale s tragedies Bursting with fascinating stories striking photographs of the team and exclusive material provided by NASA personnel this book perfectly captures the risk complexity and gravitas of this immense journey

Apollo Al Cimino,2019-05-14 Apollo follows man s dream of walking among the stars and charts how space travel and space programs have grown since then In 2019 it will have been 50 years since Neil Armstrong became the first man to walk on the Moon When his famous words came crackling across the atmosphere That s one small step for man one giant leap for mankind The first moon landing took place on July 20 1969 during the Apollo 11 mission Nine days earlier on July 11 1969 David Bowie released his iconic Space Oddity song about Major Tom the astronaut The two events resonated with people back on Earth like a match made in the heavens The crew of Apollo 11 Neil Armstrong Buzz Aldrin and Michael Collins had been launched into space by the powerful Saturn 5 a three stage rocket which was about as tall as a 36 story building It was the culmination of NASA s human spaceflight program which began 1961 This is the story of the Apollo Missions with all of its ups and downs in 1967 a cabin fire killed the entire crew of Apollo 1 and after an oxygen tank exploded the Apollo 13 crew limped back to Earth using the lunar module as lifeboat But despite Apollo s many setbacks twelve men walked on the Moon and their place in American history was assured forever

Reaching for the Moon Hal Marcovitz,2001 Surveys the achievements of the Apollo program and the astronauts and other individuals who made the program a success
