Spirit-empowered Christianity in the Twenty-first Century

Vinson Synan, 2011 What does a re vision of the Charismatic Pentecostal Spirit empowered movement look like in the coming years of this millennium The first century of this revival seems to attest that the Lord raised up the holiness and Pentecostal movements not only to be custodians of these distinctive truths but the perpetuators of them as well If any generation ceases to accentuate this emphasis the movement likely will forfeit the right to be recognized as such When the Pentecostal message is preached published and proclaimed through triumphant song an atmosphere is sustained for people to experience anew and again the reality of salvation holiness charismata wholeness and hope Such a revival will be biblically based rationally sound traditionally accurate and experientially real Spirit Empowered Christianity in the 21st Century is an authoritative compilation of the presentations from thirty leaders in the Charismatic Pentecostal movement given at the Empowered 21 Conference in Tulsa OK in April 2010 These chapters share emerging insights on how the next generation will handle the profound issues facing Christians within the Charismatic Pentecostal movement in the 21st century For example one portion covers the topic of the 21st century renewal while another discusses how we can protect our Charismatic distinctive Another portion will highlight Charismatic adaptations for reaching this present age discussing issues of social and economic justice prosperity and suffering challenges to urban ministry the future of the next generation Oneness Pentecostalism and missiological aims in North America

The Tradition of the Gospel Christians Andrey

Puzynin, 2011-01-01 The Tradition of the Gospel Christians explores the post Soviet tradition of evangelical Christians originating from the ministry of the Victorian revivalist preacher Lord Radstock in St Petersburg in the 1870s In an effort to resolve the current evangelical crises of theology and identity this study provides an analysis of the tradition s history reflecting on its restorationist tradition the contours and vectors of its theology and its practice of biblical interpretation The historical analysis reveals that the major causes of the crises of identity and theology pertain to the socio political upheavals which in turn led the tradition to develop strategies to maintain relevance in its changed contexts The socio political shifts were also responsible for the lack of emphasis on research and scholarship which contributed to a difficulty in finding the necessary resources and intellectual virtues to deal with the collapse of the Soviet Union Building on the discoveries of the historical analysis Andrei P Puzynin offers a new historical and theological paradigm by reconstructing the self identifying narrative and theological framework in critical dialogue with recent developments in Anglo American evangelicalism and postliberalism Following the trajectory of the evangelical tradition in the post Soviet context a trajectory which relies on Western thought the book adopts the narrative theological method of reading the world though the lens of Scripture The self identifying narrative of the community is reconstructed through a theological reading of the previous identity constructions

in the light of recent discussions on Christ and the powers The result of this study helpfully explains the dynamics of Eastern evangelicalism in a traditionally Russian Orthodox setting **Apostolical Christianity** Charles Adolphus Row,1843

Bellinzoni,2016-02-10 This is not your typical introduction to the New Testament Rather Bellinzoni invites the reader to understand how biblical scholars employ the historical method to understand better who Jesus of Nazareth really was and how and why oral and then written tradition about Jesus developed into the New Testament Instead of simply summarizing the results of biblical scholarship Bellinzoni discusses the rules of evidence and the tools of the historical method that scholars use He then approaches the text of the New Testament by leading the reader step by step through relevant biblical texts in order to illustrate some of the tools of New Testament study and how these tools work textual criticism literary criticism and philology source criticism form criticism redaction criticism etc This volume doesn t just describe the conclusions of biblical scholarship it invites the reader to actually do biblical scholarship and thereby draw the best possible conclusions about what happened when and why This volume is not limited to the twenty seven books of the New Testament but discusses relevant extra canonical early Christian literature which is critical to an understanding of the history of the early church and the development of the New Testament canon History of the Christian Church Philip Schaff,1978 *Ante-Nicene Christian Library* ,1883 **The Evolution of Religions** Lance Grande,2024-02-13 Thousands of religions have adherents today and countless more have existed throughout history What accounts for this astonishing diversity This extraordinarily ambitious and comprehensive book
