Furniture Studio Jeffrey Karl Ochsner, 2012 Furniture Studio explores the origins methods results and influence of the unique and highly successful furniture design and fabrication studios offered by the University of Washington Department of Architecture The furniture program initiated by Andris Vanags is an immersion into the role of materials design and making in architectural education

Students directly engage the physical properties of materials and the knowledge gained through this engagement enriches the design and fabrication process. The experiences of its graduates reveal that the studio fosters creative thinking that truly integrates design and making. Ochsner presents historical background to shop based courses including furniture studio, traces the careers of four representative graduates of the program and suggests implications from this program for architectural education and individual achievement beyond the University of Washington. Eleven students and the projects they created in the winter 2009 studio are profiled and the book contains a fully illustrated catalogue of exemplary student projects from 1989 to the present. Illustrations and descriptions throughout the book showcase the heirloom quality projects created by the students many of which won awards in competitions. Jeffrey Ochsner has written a book that will be invaluable to furniture historians, furniture makers, architects and design educators. The book's great strength is its telling of a local personal story within a broader context of architectural pedagogy and philosophy. Edward Cooke, author of *Making Furniture in Pre Industrial America*, Jeffrey Karl Ochsner is professor of architecture and associate dean for academic affairs, College of Built Environments, University of Washington. He is the author of *Lionel H Pries Architect Artist Educator* and coauthor of *Distant Corner Seattle Architects and the Legacy of H H Richardson*. **Charles and Ray Eames: Objects and Furniture Design** Patricia De Muga, Laura Garcia Hintze, Sandra Dachs, 2022-03-15. Midcentury masterpieces from the inventors of the Eames chair. Best known for their contributions to architecture, furniture design, industrial design, film and photography, Charles and Ray Eames remain among the most renowned American designers of the 20th century. The couple married in 1941 and moved to California where they pursued their furniture design in molded plywood. During the war they were commissioned by the US Navy to produce molded plywood splints, stretchers and experimental glider shells. In 1946, Evans Products began producing the Eames molded plywood furniture. Their iconic molded plywood chair was called the chair of the century by the influential architectural critic Esther McCoy. In 1949, the Eameses designed and built their own home in Pacific Palisades, their design and imaginative use of materials making this house a mecca for architects and designers internationally. Today it is considered one of the most important postwar residences in the world. This volume introduces key works by the couple from across their career. **American Architect**, 1924 **The American Architect**, 1910

Furniture + Architecture Edwin Heathcote, 2002-10-04. Occasionally you come across a book that does everything it claims and then some. This is one. Blueprints Architects have been responsible for many of the modern furniture classics of the 20th century: Mies's Barcelona Chair, Eileen Gray's side table and Le Corbusier's chaise longue. *Furniture and Architecture* takes a unique look at the relationship between architects and furniture design. Focusing not only on classic mid-20th century design (i.e. Eames, Mies, Le Corbusier and Gropius) it also provides a unique insight into who will produce the next generation of classics by asking an international array of established designers to give their tips for the top young architect designers. In addition, it includes exclusive interviews with high profile architects as well as with key figures in furniture manufacture.

and retail A directory of specialist retailers who sell architect designed furniture makes this an invaluable resource for architects and the interested public The book includes comprehensive articles and images of popular modernist architects such as Erno Goldfinger Arne Jacobsen and Eero Saarinen It also features interviews with architects Alvaro Siza David Adjaye and Selfridges director Vittore Radice Lavishly illustrated with many full colour images Contains a directory of specialist retailers selling architect designed furniture
