Architecture Factbook, 1990 Architecture fact book, *Architecture Factbook*, 1994 *Ethics and the Practice of Architecture* Barry Wasserman, Patrick J. Sullivan, Gregory Palermo, 2000-03-07 From theory to practice a unique well rounded guide to ethics for today's architect How does an architect assist a community in evaluating alternative designs Resolve a dispute with a contractor Take into account a project's impact on the natural environment When it comes to questions like these making decisions about what ought to be done or what is the best or right solution requires more than sound technical knowledge and strong design talent It demands a solid understanding of the ethical issues that lie at the heart of architectural practice *Ethics and the Practice of Architecture* offers a complete broad based introduction to this crucial subject First it examines basic ethical theories and their application to architecture and discusses different ways of identifying ethical content in architecture Bridging the gap between theory and practice the second part of the book surveys different professional settings and building project processes that frequently hold ethical concerns and charts the ethical mandates that arise from them In the final section of the book thirty case studies explore a wide range of ethical dilemmas encountered in architectural practice with useful guidance on how to work through them effectively Arranged by topics that span the key phases of a project from pre design through post occupancy evaluation these case studies allow a detailed look at ethical concerns in real life situations where multiple issues are often at stake Providing a practical framework for the exploration of ethical issues in architecture today *Ethics and the Practice of Architecture* is an excellent resource for present and future architects in all areas of the field *Professional Practice in Facility Programming (Routledge Revivals)* Wolfgang Preiser, 2015-06-11 This compelling resource which was first published in 1993 was the first book on facility programming to design parameters and specifications over a broad range of project types The book's practical how to approach is exceedingly beneficial to professionals and students involved with a wide variety of building types from corporate facilities to parks day care centres health centres and correctional facilities It also covers the fine points of working with clients The contributors provide real world case studies endowing the reader with the tools necessary to reap a deeper understanding and a more critical assessment of the major programming approaches today *Professional Practice in Facility Programming* is a uniquely current self contained resource that will prove invaluable to a wide cross section of practitioners and students **The Architectural Firm in the Post-industrial World** Robert E. Johnson (architect.), 1993 **The Architect's Handbook of Professional Practice** David S. Haviland, 1994 **Reflections on Architectural Practices in the Nineties** William S. Saunders, 1996 This timely and thought provoking collection of essays offers a detailed examination of contemporary architectural practice in the 1990s *Reflections on Architectural Practices in the Nineties* grew out of a year long symposium at the Harvard University Graduate School of Design which took stock of pressing issues in order to speculate on future paths for both education and practice Among the many challenges the architecture profession is currently facing are a

constantly volatile economic climate rapid technological change and a general globalization of society Reflections presents 29 essays by leading critics scholars and designers essays that grapple with these and other issues and provide strategies for confronting them Several additional perspectives are presented through brief passages and images of built work so that the whole forms a collage of broad diverse viewpoints George Baird Thomas Fisher and Andrew Saint are among those who provide overviews of architectural practice and education Mack Scogin Carl Sapers and David Harvey among others discuss contemporary professional responsibilities and ethics Forms of practice in the 1990s are discussed by a variety of participants including Max Bond David Dillon Rob Quigley and Sharon Zukin Rem Koolhaas Saskia Sassen and William Lazonick with others discuss the impact of the global economy on architecture Finally Peter G Rowe presents some possible implications for design education Reflections on Architectural Practice in the Nineties is an essential compendium for anyone in the ever changing future of architecture
