Archetypes of the Zodiac Kathleen Burt,1996 *Archetypes of the Zodiac* Kathleen Burt,1988 Take a deeper look at astrology as it relates to Jungian Archetypes By understanding myths and archetypes you can attain the potential of your birth chart your life map and gain conscious control of the instincts that rule you You can change the instinctual patterns that seem to have you locked in and become healthier and more productive Archetypes of the Zodiac explains the archetypal journeys of each sign Aries search for a separate identity Taurus quest for value and meaning Gemini s search for variety The technique in this book is based on the integration of the esoteric rules of the signs with their opposites This technique helps you understand your instinctual behavior enhance your creativity and modify the negative energies in your horoscope Anyone studying astrology and archetypes counselors professional astrologers and even novices can benefit from this information You can bring out the higher octave of your sign and manifest it in your life and learn to help others do the same *Gods and Planets* Eleanor Barz,1993-08-01 What happens when Mars and Venus are in love How does Jupiter defend himself against Saturn his difficult father To whom does Mercury hurry with his cap of invisibility and his winged shoes Drawing on the psychology of C G Jung Ellynor Barz looks into the foundations of astrology by recounting the myths of the planetary gods Engaging and amusing her presentation also offers new and surprising insights for both psychology and astrology When we understand the peculiarities and characteristics of the ancient gods symbolically as possibilities in our own human psyches projected in astrology onto the big screen of the night sky we discover a realm of ancient human wisdom that may exceed in subtlety most psychological models explaining the human psyche Drawing on and actualizing the many unique possibilities inherent within as described by the horoscope is a life long task All persons have the same fundamental capabilities for experience which we rediscover in these astrological symbols But the interplay of these essential forces arises in each individual in an entirely unique manner corresponding to the natal horoscope This book addresses first the astrological layperson But it also suggests a point of view seldom considered by the astrologer And for the interested psychologist a domain of knowledge and experience is revealed a wealth of material that is more deeply related to psychology than one might expect *The Cycle of the Zodiac Signs* Annemiek Bosch,2022-12-10 This survey of how astrology works was not written specifically for astrologers Its purpose is to formulate a materialist theory of what is empirically demonstrated in astrology our relationship with the cosmos Starting with the most feeble part of the astrological framework Annemiek Bosch presents an explanation for the manifestation of the zodiac signs through the year This cycle appears to be correlated with Earth s angular movement towards and away from the supermassive black hole in the center of our Milky Way galaxy Drawing on the latest scientific insights of quantum physics and consciousness research she then discusses the mechanism underpinning the astrological practice and makes it plausible that our unconscious minds are able to obtain information from quantum entanglement Our coherence seems to cause us to collectively create our reality through a process of controlled

prediction and automatic adaptation to the cosmic environment The phenomenon of consciousness instead of arising from individual isolated brains could be the result of this connectedness
