## **Architectonics Of Meaning:**

The Architectonics of Meaning Walter Watson,1993-06-15 The Architectonics of Meaning is a lucid demonstration of the purposes methods and implications of philosophical semantics that both supports and builds on Richard McKeon s and other noted pluralists convictions that multiple philosophical approaches are viable Watson ingeniously explores ways to systematize these approaches and the result is a well structured instrument for understanding texts This book exemplifies both general and particular aspects of systematic pluralism reorienting our understanding of the realms of knowing doing and making *Dreams of Architecture in Sculpture* Rebecca Anne Cooper,Southern Methodist University,2006

*Architectonics and Parametric Thinking* Frank Jacobus,Angie Carpenter,Rachel Smith Loerts,Antonello Di Nunzio,Francesco Bedeschi,2023-07-12 This book is an approachable guide for students and professionals to learn parametric modeling through the lens of architectonics allowing readers to pair fundamental ideas about architecture with parametric thinking Architectonics and Parametric Thinking begins by clearly positioning the potentials of parametric design through a series of chapters written by leaders in their respective industries This helps to situate the vast potential of parametric softwares allowing the reader to understand the full range of what is made possible by working computationally Following this theoretical introduction the book presents a manual that walks readers through the step by step construction of parametric modeling scripts built through an architectonic lens using clear compelling diagrams Each of these diagrams provide textual accompaniment that describes how each new portion of the script is transforming the algorithm as a whole as well as diagrams that show the physical transformation that is taking place as a result of the script s evolution Parametric modeling is radically transforming the design disciplines and will become the primary way designer s generate new products moving forward Written and expertly designed for architecture students and professionals this book provides an interactive approach to teaching the basics of parametric thinking in relation to architecture and design Handbook of Sociological Theory Jonathan H. Turner,2006-05-17 Sociology is experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena From this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many theoretical perspectives has a resource base of adherents As a result theories in sociology do not compete head on with each other as much as they coexist This seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory Contributors describe what they themselves are doing right now rather than what others have done in the past The goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn t usually come together to review their work The chapters in this volume represent a mix of theoretical orientations and strategies but these these theories are diverse and represent the prominent theoretical discussions in sociology today Some areas included are Section I Theoretical Methodologies and Strategies Section II The

Cultural Turn in Sociological Theorizing Section III Theorizing Interaction Processes Section IV Theorizing from the Systemic and Macrolevel Section V New Directions in Evolutionary Theorizing Section VI Theorizing on Power Conflict and Change Section VII Theorizing from Assumptions of Rationality This handbook will be of interest to those wanting a broad spectrum and overview of late 20th early 21st century sociological theory **Vanderbilt Journal of Transnational Law**, 1995

Architectures of Occupation in the Australian Short Story Patrick West, 2024-05-28 Patrick West's *Architectures of Occupation in the Australian Short Story* cultivates the potential for literary representations of architectural space to contribute to the development of a contemporary politics of Australian post colonialism West argues that the predominance of tropes of place within cultural and critical expressions of Australian post colonialism should be re balanced through attention to spatial strategies of anti colonial power To elaborate the raw material of such strategies West develops interdisciplinary close readings of keynote stories within three female authored pan twentieth century Australian short story collections *Bush Studies* by Barbara Baynton 1902 *Kiss on the Lips and Other Stories* by Katharine Susannah Prichard 1932 and *White Turtle A Collection of Short Stories* by Merlinda Bobis 1999 The capacity of the short story form to prompt creative and politically germinal engagements with species of space associated with architecture and buildings is underscored Relatedly West argues that the recent resurgence of binary thought on local national and international scales occasions an approach to the short story collections shaped by binary relationships like a dichotomy of inside and outside Concluding his argument West connects the literary and architectural critiques of the story collections to the wicked problem linked to ongoing colonial violences of improving Australian Indigenous housing outcomes Innovative and interdisciplinary this book will be of interest to scholars and students of Literary Architectural and Postcolonial Studies **Verse Function** Talia Mercer, AI, 2025-05-06 *Verse Function* offers a deep dive into the formal elements of poetry focusing on how rhythm sound and structure combine to create meaning It argues that these elements aren't mere decoration but are integral to a poem's impact The book explores how rhythm and meter influence a poem's emotional tone making it memorable while sound devices enhance its musicality and emphasize key themes The book progresses systematically beginning with rhythm and meter before examining the role of sound devices and stanzaic structure It provides practical exercises and prompts encouraging readers to apply these concepts in their own writing and analysis By understanding these principles readers can analyze poetic form with confidence gaining a deeper appreciation for the poet's craft in both canonical and contemporary works **Revisionist Revolution in Vygotsky Studies** Anton Yasnitsky, René Van der Veer, 2015-09-16 *Revisionist Revolution in Vygotsky Studies* brings together recent critical investigations which examine historical and textual inaccuracies associated with received understandings of Vygotsky's work By deconstructing the Vygotskian narrative the authors debunk the cult of Vygotsky allowing for a new exciting interpretation of the logic and direction of his theory The chapters cover a number of important themes including The chronology of Vygotsky's ideas and theory development and the

main core of his theoretical writings Relationships between Vygotskians and their Western colleagues The international reception of Vygotskian psychology and problems of translation The future development of Vygotskian science Using Vygotsky s published and unpublished writings the authors present a detailed historical understanding of Vygotsky s thought and the circumstances in which he worked It includes coverage of the organization of academic psychology in the Soviet Union the network of scholars associated with Vygotsky in the interwar period and the assumed publication ban on Vygotsky s writings This volume is the first to provide an overview of revisionist studies of Vygotsky s work and is the product of close international collaboration between revisionist scholars It will be an essential contribution to Vygotskian scholarship and of great interest to researchers in the history of psychology history of science Soviet Russian history philosophical psychology and philosophy of science

*The Making of Things* Frank Jacobus,Angela Carpenter,Rachel Smith Loerts,Justin M. Tucker,Randal Dickinson,2021-07-29 *The Making of Things* is about effect and intention in the schematic architectural model a deep dive into the nature of architectonic form as the underlying syntax for all architectural work By focusing on primitive geometries alongside fundamental principles of architectural thinking and making this book enhances the reader s capacity to intellectually and physically craft models that effectively communicate intention With over 650 diagrams this book acts as an expansive visual glossary that reveals the underlying structure of architectonics and acts as an encyclopedia of formal possibilities Supporting essays in the book explore the nature of perception abstraction and metaphor to provide a theoretical basis of formal effects in architecture This structure enables readers to make clear and direct connections between the things you construct and the reasons you construct them This book is a bridge from the what to the why of form making It is a pedagogical notebook a design primer that prompts discourse about the nature of objects This is a must have desk reference for beginning architecture and interior design students to stimulate their creative approaches and gain foundational knowledge of the underlying effects of formal typologies and how they manifest themselves in built forms around the world
