Miller, During this time of planetary crisis the Arcturians explore how we starseeds can cope with these dramatic changes such as updating our immune systems and dealing with electromagnetic energies and energy fields They offer recommendations and ideas for helping us cope with these overwhelming planetary changes This book explores the important subject of ascension and the work leading to ascension The Arcturians present a model based on their observations that precipitating events of ascension occur when the third dimension and fifth dimension intersect At the time of that intersection a powerful spiritual energy will download

into Earth's energy field that can uplift those who are at the highest vibrations and prepared for ascension. Another concept introduced in this volume is the idea of holographic healing. In holography, a piece of an object can represent the whole. In this Arcturian theory, a person on Earth is only a part of their whole self. Other parts can include the past self, which is the self in other lifetimes, and the future self, which is the self that will live and evolve in future times. There is also a multidimensional self that exists on this and other dimensions.

The knowledge and technology to proceed with holographic healing is hereby granted to each of you who reads these words. It is not necessary to travel to distant places. With the holographic technology and skills you have been taught, you will be able to project your energies in the most direct and transformative way throughout the Earth. I ask each of you to take that part of the Earth you are familiar with and know. When you interact with that part, you can affect the whole Earth. Whatever part of that whole that is distorted can be transformed into a fifth-dimensional holographic energy.

Fifth-Dimensional Soul Psychology David K. Miller,2014-08-18 Greetings I m Vywamus I m a soul psychologist In this series of lectures we will explore the meaning of soul psychology and how it relates to modern psychology More importantly we will show how soul psychology as a practice is becoming more popular and is an especially useful technique for starseeds and others who are awakening to the fact that there is reincarnation and that there are soul lessons that must be learned The basic essence of soul psychology rests with the idea that the soul is evolving and that part of this evolution is occurring through incarnations in the third dimension Now to even speak about the soul evolving is perhaps a controversial subject because we know that the soul is eternal We know that the soul has been in existence for infinity and we know that the soul is perfect So why would the soul have to evolve The answer to this question is complex and we may not be able to totally answer it using third dimensional terminology But it is an important question to answer because the nature of soul evolution is inherently connected to your experiences in the third dimension The soul in completing its evolutionary journey needs these experiences in the third dimension and it needs to complete the lessons here through David K Miller Chapters Include Soul Evolution The Nature of the Soul Enlightenment Soul Psychology and Planetary Healing Soul Group Psychology
