Traditional Arid Lands Agriculture Scott E. Ingram, Robert C. Hunt, 2015-04-02 Traditional Arid Lands Agriculture is the first of its kind Each chapter considers four questions what we don't know about specific aspects of traditional agriculture why we need to know more how we can know more and what research questions can be pursued to know more What is known is presented to provide context for what is unknown Traditional agriculture nonindustrial plant cultivation for human use is practiced worldwide by millions of smallholder farmers in arid lands Advancing an understanding of traditional agriculture can improve its practice and contribute to understanding the past Traditional agriculture has been practiced in the U S Southwest and northwest Mexico for at least four thousand years and intensely studied for at least one hundred years What is not known or well understood about traditional arid lands agriculture in this region has broad application for research policy and agricultural practices in arid lands worldwide The authors represent the disciplines of archaeology anthropology agronomy art botany geomorphology paleoclimatology and pedology This multidisciplinary book will engage students practitioners scholars and any interested in understanding and advancing traditional agriculture

The Arid Lands Diana K. Davis, 2016-03-25 An argument that the perception of arid lands as wastelands is politically motivated and that these landscapes are variable biodiverse ecosystems whose inhabitants must be empowered Deserts are commonly imagined as barren defiled worthless places wastelands in need of development This understanding has fueled extensive anti desertification efforts a multimillion dollar global campaign driven by perceptions of a looming crisis In this book Diana Davis argues that estimates of desertification have been significantly exaggerated and that deserts and drylands which constitute about 41% of the earth's landmass are actually resilient and biodiverse environments in which a great many indigenous people have long lived sustainably Meanwhile contemporary arid lands development programs and anti desertification efforts have met with little success As Davis explains these environments are not governed by the equilibrium ecological dynamics that apply in most other regions Davis shows that our notion of the arid lands as wastelands derives largely from politically motivated Anglo European colonial assumptions that these regions had been laid waste by traditional uses of the land Unfortunately such assumptions still frequently inform policy Drawing on political ecology and environmental history Davis traces changes in our understanding of deserts from the benign views of the classical era to Christian associations of the desert with sinful activities to later neo colonial assumptions of destruction She further explains how our thinking about deserts is problematically related to our conceptions of forests and desiccation Davis concludes that a new understanding of the arid lands as healthy natural but variable ecosystems that do not necessarily need improvement or development will facilitate a more sustainable future for the world's magnificent drylands

The Arid Lands John Wesley Powell, 2004-01-01 One of

the most significant and seminal books ever written about the West the classic statement of the terms on which the West could be peopled Wallace Stegner from the introduction John Wesley Powell s arid lands report was the first to argue that the American West could not support a conventional system of agriculture and that its lands could not sustain unlimited development He recognized that water was a more precious resource than land that rainfall could never support agriculture in the region and that controlled irrigation offered the best use of its natural resources Years of drought have proved the value of his advice which was not well received by an expansionist nation Despite opposition from the timber cattle and mining industries Powell s work led to the first assessments of the available water supplies and to the consolidation of government surveys and policies under one administration
