Contemporary Spanish Poetry Cecile West-Settle, Sylvia Sherno, 2005 Debicki's illuminating application of varied critical methodologies and theoretical approaches in books such as *Poetry of Discovery* and *Spanish Poetry of the Twentieth Century* is reflected in all the essays included in this book

Modern and Contemporary Spanish Women Poets Janet Pérez, 1996 This study gives a comprehensive overview of women poets of Spain from the Romantic era to the present It aims to give a developmental perspective the sense of a whole poetry that spans more than a century The breadth of the analysis is not only temporal Catalans Galicians exiles expatriates and women poets who lived and wrote in Spain all fall within the critical sweep

Contemporary Spanish Poetry (1898-1963) Carl W. Cobb, 1976

Spanish contemporary poetry Diana Cullell, 2016-05-16 Spanish contemporary poetry An anthology presents a selection of Spanish peninsular poetry from the 1970s to the present day with an introductory study of the most relevant poetic trends and poetic groups of the period followed by guided and close readings of each poem The anthology includes poems by twenty two authors selected according to their literary rigour and with attention to the relevance of their work a comprehensive introductory study notes thorough individual commentaries to the poems and lists of selected vocabulary and rhetorical terms that provide accessibility to the anthology The poetic selection is divided into sections and subsections in order to aid its pedagogical intent covering the poetry written during the transition to democracy the emergence of poetry written by women in the 1980s the Spanish poetic field of the 1990s the poetry written at the turn of the new millennium and some of the youngest voices in Spanish poetry today English speaking students working in the field of Hispanic literature but also a more general reader keen on literature written in Spanish language should thoroughly enjoy this work

Spanish Poetry of the Twentieth Century Andrew Debicki, 2014-10-17 Twentieth century Spanish poetry has received comparatively little attention from critics writing in English Andrew Debicki now presents the first English language history published in the United States to examine the sweep of modern Spanish verse More important he is the first to situate Spanish poetry in the context of European modernity to trace its trajectory from the symbolists to the postmodernists Avoiding the rigid generational schemes and catalogs of names found in traditional Hispanic literary histories Debicki offers detailed discussions of salient books and texts to construct an original and compelling view of his subject He demonstrates that contemporary Spanish verse is rooted in the modern tradition and poetics that see the text as a unique embodiment of complex experiences He then traces the evolution of that tradition in the early decades of the century and its gradual disintegration from the 1950s to the present as Spanish poetry came to reflect features of the postmodern especially the poetics of text as process rather than as product By centering his study on major periods and examining within each the work of poets of different ages Debicki develops novel perspectives The late 1960s and early 1970s for example were not merely the setting for a new aestheticist generation but an era of exceptional creativity in which both established and new writers engendered a profound intertextual and often self

referential lyricism This book will be essential reading for specialists in modern Spanish letters for advanced students and for readers interested in comparative literature
