The Contemporary Japanese Architecture, 1988 *Small Houses* Claudia Hildner, 2012-12-21 Japanese residential building has fascinated whole generations of architects Alongside the strict implementation of design concepts the small conceptual houses are excellent examples for the demonstration of creative experimentation in terms of spatial configuration materials and the ability to organise even the

smallest of spaces These houses are like miniature laboratories clearly showing not only the creativity of Japanese architects but also the treatment of the ephemeral and the various layered boundaries between private and public space The fast pace of change in Japanese cities has generated an enormous architectural treasure trove for the Western world This treasure trove will be documented in *Small Houses* a book that will also familiarise the reader with the broader aspects of Japanese culture *Small Houses* is a book about Japanese residential building aimed at architects interior designers students and anyone interested in this exciting and dynamic scene The book focuses on the small houses mainly one family houses The selected projects are by both internationally renowned architects and by architectural practices that are little known outside Japan An in depth treatment will be presented for each project which will familiarise readers with the cultural and societal context and the particular Japanese way of treating certain architectural elements The presentation of details that are irrelevant outside of Asia is avoided The book focuses on existing residential buildings that are represented by images and other architectural graphics such as layouts and sections

Contemporary Japanese Architecture, Its Development and Challenge Botond Bognár,1985 *Contemporary Japanese Architecture* Noboru Kawazoe,1968 **Materials and Meaning in Contemporary Japanese Architecture** Dana Buntrock,2013-09-13 In this beautiful and perceptive book Dana Buntrock examines for the first time how tradition is incorporated into contemporary Japanese architecture Looking at the work of five architects Fumihiko Maki Terunobu Fujimori Ryoji Suzuki Kengo Kuma and Jun Aoki Buntrock reveals the aims influencing many wonderful works barely known in the West the sensual side of Japanese architecture borne out of approaches often less concerned with professionalism than with people and place The buildings described in this book illustrate an architecture that embraces uniqueness expressing unusual stories in the rough outlines of rammed earth and rust and demonstrating new paths opening up for architectural practice today For some these examples will offer new insight into expressions of tradition in Japanese architecture for others this book offers inspiration for their own efforts to assert the unique heritage of other regions around the world Compelling insightful and groundbreaking this book is essential for everyone studying Japanese architecture and anyone trying to invoke narrative and tradition in contemporary design

Place, Time, and Being in Japanese Architecture Kevin Nute,2004 In addition to highlighting the human benefits of built environments which relate to particular place time and being many of the Japanese buildings examined illustrate practical strategies for revealing these universal parameters which are equally applicable beyond Japan It is suggested that wider use of some of these approaches could not only help to sustain both environmental and cultural identities against the homogenising effects of globalisation but also has the potential to heighten our appreciation of the peculiar condition of being here now Jacket *Contemporary Japanese Architecture* ,1970 **Contemporary Japanese House** Zhao Xiang,2018-04-25 A reference book designed to showcase the immense variety of modern Japanese architecture All projects featured in the book were completed in the last three years The author is a professor from Fukuoka University with wide

experience in both teaching and designing Over forty projects showcase the immense variety among Japanese detached houses constructed over the past three years Some of these houses are designed around the concept of intermediate space featuring courtyards landscapes and tearooms Others take how to respond to the environment as the design theme employing green building techniques and outdoor insulation etc while others are inspired by the question of how to implement one's lifestyle focusing on urban housing family reconstitution and variability Readers will learn about the meaning and the story behind these designs through every project description experiencing the conciseness which defines Japanese house design In addition to this Professor Zhao Xiang from Fukuoka University discusses various reasons for this diversity His informative description of architecture and design theory will help the reader understand the methods behind Japanese house creation and this book also includes useful reference materials which can be used as a basis for new houses in the Japanese style
