Contemporary Societies Problems And Prospects:

Contemporary Societies Daniel J. Curran, Claire M. Renzetti, 1994 In editing this book one of our primary concerns was to assist students in developing a structural analysis of the serious social problems they repeatedly hear about on television in political campaigns and in newspapers and more importantly that some may experience in their everyday lives We wanted to help them see the personal as political so that they could critically evaluate the structural causes of these problems and in turn begin to conceive of structural or collective actions to solve them Consequently readers will find in the chapter introductions in this book and in the readings themselves a strong critical or conflict orientation with an emphasis on the roles of particular social institutions and normative policies and procedures in the generation and perpetuation of social problems In addition a major theme of the text is the global reach of social problems

New Pedagogical Challenges in the 21st Century Olga Bernad-Cavero, Núria Llevot-Calvet, 2018-07-04 The societies of the twenty first century are subject to social cultural political and economic changes In this context the school is asked to educate the future citizens in the present To respond to this kaleidoscopic reality the school is immersed in a pedagogical revolution In this book the reader will find a selection of avant garde research works from different disciplines and contexts which have their epicenter in the school and in the faculties of education New issues in pedagogy and education and new roles of teachers and students are discussed in a global and diverse context And new methodological and formative proposals are also proposed to build the ideal school and the ideal teacher from the initial and continuous teacher training
