Contemporary Spiritualities Social And Religious Contexts:

Contemporary Spiritualities Clive Erricker, Jane Erricker, 2001-08-01 Spirituality can be understood within both a religious and secular context Fuelled by the controversy that surrounds different understandings of human identity and notions of progress knowledge and truth in modernist and postmodernist contexts the concept of spirituality is a hotly contested topic of debate as to its relevance within contemporary culture and its meaning within religious traditions This book aims to inform readers on this debate and contextualize it within these different frames of reference It approaches the topic of spirituality with an identification of the major influences on contemporary thinking and presents a coherent framework of understanding that links divergent thinking into a common goal Writings range across different thinkers and practitioners within established religious tradition contemporary movements and those who operate within psychological and secular understandings Focusing on the question what does it mean to be human this engaging study attempts to overcome the divide between secular and religious understandings of spirituality *Complementarian Spirituality* Natalie Brand, 2013-10-09 In this work Dr Brand seeks to contribute a unique complementarian expression of Reformed spirituality in order to stimulate a spiritual renewal in the contemporary Reformed tradition Using a distinctively feminine approach in a theological arena largely monopolized by male theologians the author anchors corporate and personal spirituality upon the unio mystica so returning to a Calvinistic appreciation of the Christian life Grounding Reformed spirituality on the marital union between Christ and the church a corporate portrait of the church is explored Critical of the neglect of women in Reformed church life and practice the author calls the tradition to reform proposing an intentional complementarian use of women that can practically and spiritually profit the whole church body The book culminates with an initial tracing of a Reformed feminine spirituality which is pastorally relevant to women as well as encouraging a renewed experiential enjoyment of Christ for both men and women *The Intimate Other* Anna S. King, J. L. Brockington, 2005 *The Intimate Other* explores the theme of the devotional element in Indic Religions not only in Hinduism in which bhakti has become the dominant form but also in Buddhism Jainism Sikhism and Islam The essays by scholars of international repute show the strength of this devotion to the divine as a living and powerful source of value aesthetic imagination creativity and well being They also analyse the sometimes divergent interests of scholar and devotee problematising devotion and exposing its historical development as complex contested and political Of particular interest are the chapters on the Jain and Buddhist traditions where the existence of devotion has often been doubted or denied Contributors investigate widely raging topics these include an analysis of bhakti within the Sanskrit epics a text historical approach to Valmiki Kabir's authorship of the poems attributed to him contemporary attitudes to devotion to the Ganga devotion within a syncretistic Jain movement in Theravada Buddhism subcontinental Sufi Islam young Sikhs in Britain and in the shared musical and poetic traditions of Hindus Sikhs and Muslims The volume ends with a sensitive exploration of the devotional love that overpowers death within

the Hindus sikhs and Muslims The volume ends with a sensitive exploration of the devotional love that overpowers death within the Hindu bhakti context Together they demonstrate vividly just how passionate love for the intimate other penetrates and inspires so many aspects of the religious culture of South Asia

The Birth of a Celestial Light Tina Eftekhari, 2015-01-12 It is interesting that women who campaign for women's rights and interests in Iran have not considered engaging with women who are neither conventional Muslims nor strongly secular but instead explore other aspects of religion and spirituality The women examined in this study identify themselves as believers in God but have different views of religion some wish to be called religious but do not follow the official Islamic Shia and have their own interpretation of what it means to be a good Muslim while some think of spirituality as their religion and refer to themselves as spiritual Scholarship on women in Iran has not yet taken such an approach and has not considered women's interests in spirituality with regard to religion As such this book differs greatly from existing work on Iranian women's lives after the Islamic revolution It examines the potential feminist implications of women's involvement in one of the most popular spiritual movements Inter universal Mysticism and its emancipatory potential for women The central argument here is that feminist spirituality is an expression of women's power to identify explore and assess their own spiritual experiences in order to construct their own sense of self and transform their lives As such this book broadens discourses about women in Iran by examining the link between spirituality coping and meaning making in the lives of women involved with Inter universal

Mysticism The study's unique contribution is not simply that it extends the range of contexts in which gender can be analysed but rather that it through the lens of feminism demonstrates the significance of women's choice of spirituality as an investigative issue which can elucidate women's wider social cultural and political processes in contemporary Iran

Spirituality for Youth-Work Phil Daughtry, 2016-09-23 This book addresses a systemic gap in existing studies on human services and youth work While the notion of spirituality does make rare appearances in such literature it is often vaguely defined and underdeveloped both as a concept and as a mode of practice This ambiguity is symptomatic of the broader shift in the sociological context of Western and global societies that has been referred to variously as post modern late modern and post secular From the perspective of the relationship between human development and the spiritual theological we live in a time between times We have not yet worked out how to speak of spirit nor how to include its meanings in positive youth intervention and developments in our language for a public spiritual consciousness remain in a state of cultural flux This book offers a coherent vocabulary and narrative from which to construct a more explicit and deliberate practice of spiritual care education and professional identity for youth workers It speaks directly to youth work practitioners managers of youth services those providing youth work education and anyone with an interest in youth and spirituality research and practice

Azusa Reimagined Keri Day, 2022-06-07 In *Azusa Reimagined* Keri Day explores how the Azusa Street Revival of 1906 out of which U S Pentecostalism emerged directly critiqued America's distorted capitalist values and practices at the start of the twentieth century Employing historical research theological analysis and critical theory Day demonstrates that Azusa's religious rituals and traditions rejected the racial norms and profit driven practices that many white Christian communities gladly embraced Through its sermons and social practices the Azusa community critiqued racialized conceptions of citizenship that guided early capitalist endeavors such as world fairs and expositions Azusa also envisioned deeper democratic practices of human belonging and care than the white nationalist loyalties early U S capitalism encouraged In this lucid work Day makes Azusa's challenge to this warped economic ecology visible showing how Azusa not only offered a radical critique of racial capitalism but also offers a way for contemporary religious communities to cultivate democratic practices of belonging against the backdrop of late capitalism's deep racial divisions and material inequalities

Confronting Kingdom Challenges Samuel T. Logan Jr., 2007-08-09 It takes only one look at today's news page or one listen to the news shows to understand that clearly there is no shortage of kingdom challenges for the twenty first century church at large for Christian organizations and agencies or for us as individuals In the face of such enormous problems as the rise of pagan world religions AIDS sexual abuse and trafficking urban poverty and ethnic and religious conflict what can you and your fellow Christians do According to the diverse group of contributors in this book you can choose to get involved sharing not only the kingdom burdens but the kingdom opportunities with other brothers and sisters in Christ so that no Christian no church no ministry no nation has to confront these challenges alone But how can you join in doing the work you

are called to do The superb analysis biblical solutions and reality tested ideas put forth in this book by some of the leaders of the global Reformed and evangelical church will show you Coming from the fields of religion education medicine broadcasting psychology urban ministry and missions these fellow Christians are encountering the challenges daily Their suggestions will give you a grasp of not only what is necessary to be a global evangelical Christian today but how to respond to the physical social emotional and spiritual needs of others around the world and perhaps in your own backyard

Materializing Religion William Keenan, 2017-03-02 The material symbol has become central to understanding religion in late modernity Overtly theological approaches use words to express the values and faith of a religion but leave out the incarnation of religion in the behavioural performative or audio visual form This book explores the lived experience of religion through its material expressions demonstrating how religion and spirituality are given form and are thus far from being detached or ethereal Cutting across cultures senses disciplines and faiths the contributors register the variety in which religions and religious groups express the sacred and numinous Including chapters on music architecture festivals ritual artifacts dance dress and magic this book offers an invaluable resource to students of sociology and anthropology of religion art culture history liturgy theories of late modern culture and religious studies *The British National Bibliography* Arthur

James Wells, 2001 **Contemporary Spiritualities** Stefania Palmisano, Nicola Pannofino, 2020-11-01 Contemporary alternative spirituality as studied by sociologists is usually seen as a recent phenomenon dating from the 1960s and 1970s However when viewed from a longer term perspective this form of religious expression is actually seen to reintroduce concepts that recur throughout Western cultural history This book argues therefore that spirituality in the 21st Century actually shares many of the same characteristics as Classical Mediaeval Renaissance and Modern spiritualities It is neither entirely new nor is it clearly alternative to more established religions The book is divided into two parts The first sets out the context in which contemporary alternative spirituality has formed charting its development as an academic term and a social phenomenon The second part looks at how these two elements have developed in countries that are historically Catholic focussing on specific examples in contemporary Italy spiritualities based on the sacralisation of nature those concerned with health and wellbeing and those which are fascinated by mystery Catholic majority countries are particularly interesting in this instance as the Catholic Church has a unique cultural hegemony with which to compare alternative spiritual practices It concludes that spirituality if framed in a longer historical perspective is a way of acting and seeing the world which was built and continues to be built upon complex relations with various contradictory sources of authority such as religion magic thinking secularism rationalism various spheres of lay culture This is a bold take on the spirituality milieu and as such will be of great interest to scholars of Religious Studies working on the sociology of religion contemporary spirituality and the rise of the spiritual but not religious **Subject Guide to Books in Print**, 1991 **The Secular Faith Controversy** Edward Ian Bailey, 2001 When God disappears from a secular society religious beliefs surface in other non religious sectors of society e g

sport as religion Edward Bailey argues that within and beneath everyday practices of non religious pursuits lie hidden religious ethical assumptions that mostly go unnoticed that is i e implicit rather than explicit In this volume Bailey sets out what is meant by implicit religion and proposes a methodology for studying implicit religion and how it can encourage greater understanding between secular and religious spheres **The Spirit that Moves** Pieter De Villiers,Celia Ellen Teresa Fourie,Christo Lombaard,2006 **Forthcoming Books** Rose Arny,2001 Heythrop Journal ,2002 A select book list appears quarterly Insight Turkey ,2006 *American Book Publishing Record* ,2003 Gender and Power in Contemporary Spirituality Anna Fedele,Kim Knibbe,2013-03-05 This book explores the entanglements of gender and power in spiritual practices and analyzes strategies used by spiritual practitioners to attain what to social scientists might seem an impossible goal creating spiritual communities without creating gendered hierarchies What strategies do people within these networks use to attain gender equality and gendered empowerment How do they try to protect and develop individual freedom How do gender and power nevertheless play a role The chapters in this book together and separately demonstrate that in order to understand contemporary spirituality the analytical lenses of gender and power are essential Furthermore they show that it is not possible to make a clear distinction between established religions and contemporary spirituality the two sometimes overlap and at other times spirituality distances itself from religion while reproducing some of its underlying interpretative frameworks This book does not take the discourses of spiritual practitioners for granted yet recognizes the reflexivity of spiritual practitioners and the reciprocal relationship between spirituality and disciplines such as anthropology The ethnographic descriptions of lived spirituality included in this volume span a wide range of countries from Portugal Italy and the Netherlands to Mexico and Israel *Present-Day Spiritualities* ,2013-10-10 Many forms of present day Western spirituality contribute to people s well being whereas others have raised criticism The study of these different forms is however complicated by their continuously diverging practices and ideas By bringing to bear a multidisciplinary approach the ten specialists of this volume are able to analyze diverse new instances of spirituality e g in religious contexts Buddhism Christianity popular use organizations and enterprises alternative health service and works of art Most contributions also discuss methods and theories In their editorial chapters Elisabeth Hense Frans Jespers and Peter Nissen show the remarkable overlaps in the approaches definitions and evaluations of the contributions in this volume and provide a theoretical framework Both the fresh analyses and the theoretical reflections in this volume point the way to new approaches in this field of study Contributors include Jerry Biberman Mark Elliott Miguel Farias Johan Goud Paul Heelas Elisabeth Hense Frans Jespers Hubert Knoblauch Peter Nissen Paul van der Velde
