**British Elections & Parties Review** Roger Scully, Justin Fisher, Paul Webb, David Broughton, 2022-03-01 First published in 2004 this is the fourteenth annual volume published under the auspices of the Elections Public opinion and Parties EPOP specialist group of the Political Studies Association PSA of the United Kingdom The 2003 September Cardiff conference was distinguished by the First Minister for Wales Rt Hon Rhodri Morgan AM This is a collection of twelve papers from the conference and a reference section Gender, nation and conquest in the high Middle Ages Susan M. Johns, 2016-05-16 Nest of Deheubarth was one of the most notorious women of the Middle Ages mistress of Henry I and many other men famously beautiful and strong willed object of one of the most notorious abduction elopements of the period and ancestress of one of the most famous dynasties in medieval Ireland the Fitzgeralds This volume sheds light on women gender imperialism and conquest in the Middle Ages From it emerges a picture of a woman who though remarkable was not exceptional representative not of a group of victims or pawns in the dramatic transformations of the high Middle Ages but powerful and decisive actors The book examines beauty love sex and marriage and the interconnecting identities of Nest as wife concubine mistress both at the time and in the centuries since her death when for Welsh writers and other commentators she has proved a powerful symbol *Diverging Mobilities* Danny MacKinnon, Jon Shaw, Iain Docherty, 2008-02-18 This book presents an academic investigation into the impact of devolution on the formulation and delivery of transport policy in the UK Using interviews with key policy makers transport providers business organisations and user groups this book draws upon concepts and ideas from across the social sciences to inform their analysis

**Devolution, Regionalism and Regional Development** Jonathan Bradbury, 2007-12-18 Devolution Regionalism and Regional Development provides an overview and critical perspective on the impact of devolution on regionalism in the UK since 1999 taking a research based look at issues central to the development of regionalism politics governance and planning This multidisciplinary book is written by academics from the fields of geography economics town planning public policy management public administration politics and sociology with a final chapter by Patrick Le Gales putting the research findings into a theoretical context This will be an important book for those researching and studying economic and political geography and planning as well as those involved in regional development *Civil Society and Governance in Europe* William A. Maloney, Jan W. Van Deth, 2008-01-01 The research presented in this book based on new primary data demonstrates that in terms of civil society actors adapting to the European political space the Europeanization process has an uneven development This innovative book integrates top down approaches for the study of relationships within the developing EU multilevel system i e the consequences of Europeanization for civil society at the local level and bottom up approaches i e the consequences of civil society for the process of European integration and democracy in the EU The contributors argue that exploration of these recursive linkages requires a rethinking of the relationships between local

national and trans national civil society on the one hand and multi level governance on the other In analyzing the opportunities for civil society associations to contribute to European integration and decision making from various perspectives the following findings are presented amongst others engagement with and confidence in the EU compared to national institutions is relatively weak among associational members party elites play a key gatekeeper role in the European space the EU and interest groups have had limited success in stimulating the development of citizen engagement civil society and social capital in various countries In the rapidly expanding field of research on democratic decision making in Europe this book will be welcomed by academics and scholars alike at postgraduate levels and above Experts working in the field of European decision making such as lawyers and lobbyists who are looking for conclusions based on high quality empirical research will also find much in this book to engage them

British Museum,1922 **Civil Society in Wales** Graham Day,David Dunkerley,Andrew Thompson,2006 Civil Society in Wales Policy Politics and People provides a critical evaluation of the main themes and points of contention in debates on civil society past and present The contributors explore the relevance of the concept of civil society for thinking about the relationship between state and citizen the significance of market values within contemporary societies and their impact upon individuals examining how societies voluntarily organize themselves beyond the state Book Jacket *Britpop and the English Music Tradition* Jon Stratton,2016-04-15 Britpop and the English Music Tradition is the first study devoted exclusively to the Britpop phenomenon and its contexts The genre of Britpop with its assertion of Englishness evolved at the same time that devolution was striking deep into the hegemonic claims of English culture to represent Britain It is usually argued that Britpop with its strident declarations of Englishness was a response to the dominance of grunge The contributors in this volume take a different point of view that Britpop celebrated Englishness at a time when British culture with its English hegemonic core was being challenged and dismantled It is now timely to look back on Britpop as a cultural phenomenon of the 1990s that can be set into the political context of its time and into the cultural context of the last fifty years a time of fundamental revision of what it means to be British and English The book examines issues such as the historical antecedents of Britpop the subjectivities governing the performative conventions of Britpop the cultural context within which Britpop unfolded and its influence on the post Britpop music scene in the UK While Britpop is central to the

volume discussion of this phenomenon is used as an opportunity to examine the particularities of English popular music since the turn of the twentieth century

**The Nations of Britain** Christopher G. A. Bryant, 2006 Is Britain one nation or many Is it a nation with more than a thousand years of history or an invented nation only as old as the 1707 union of England and Scotland Is devolution in Scotland and Wales a step towards the eventual break up of Britain And today what does it mean to be British The Nations of Britain offers an up to date analysis of these questions drawing on sociology politics history and cultural studies to give a thorough account of the national relationships that constitute modern Britain The book is divided into sections focusing on Scotland Wales and England and also on the legacy of Empire the British relationship with Ireland Europe and the Commonwealth and the future of the British union In each of these sections recurrent themes such as cultural identity multiculturalism economy politics and civil society are explored The book examines different conceptions of England Wales Scotland and Britain and argues that Britain will continue to accommodate national and cultural differences while itself remaining a nation Constitutionally today's asymmetrical devolution could lead to the break up of Britain but it is more likely to evolve into an asymmetrical federalism This book will be a valuable resource for students and teachers of British politics sociology and contemporary history and for other readers interested in the future of Britain

Revitalizing Democracy? Elin Royles, 2007 Revitalizing Democracy Devolution and Civil Society in Wales takes advantage of the real time experiment of devolution to assess whether these high expectations were realized in practice It investigates the influence of regional government on political culture by focusing on the impact of devolution on civil society during the Assembly's first term Its particular focus is on whether devolution enhances civil society's ability to contribute to revitalizing democracy and the interrelationship between civil society and national identity The book develops an empirical understanding of post devolution civil society through theoretically informed detailed case study based research It illustrates the significant impact of devolution on civil society and suggests potential policy prescriptions It is essential reading for anyone interested in contemporary Welsh politics and UK devolution and has a broader appeal to those interested in civil society and comparative research on regional government
