Contes kono Bohumil Holas, 1975 *Ibss: Anthropology: 1975* International Committee for Social Scien, 1978-08-24 First published in 1978 Routledge is an imprint of Taylor Francis an informa company **The Chimpanzees of Bossou and Nimba** Tetsuro Matsuzawa, Tatyana Humle, Yukimaru Sugiyama, 2011-05-06 The chimpanzees of Bossou in Guinea West Africa form a unique community which displays an exceptional array of tool use behaviors and behavioral adaptations to coexistence with humans This community of Pan troglodytes verus has contributed more than three decades of data to the field of cultural primatology especially chimpanzees flexible use of stones to crack open nuts and of perishable tools during foraging activities The book highlights the special contribution of the long term research at Bossou and more recent studies in surrounding areas particularly in the Nimba Mountains and the forest of Di ck to our understanding of wild chimpanzees tool use cognitive development lithic technology and culture This compilation of research principally strives to uncover the complexity of the mind and behavioral flexibility of our closest living relatives This work also reveals the necessity for ongoing efforts to conserve chimpanzees in the region Chimpanzees have shed more light on our evolutionary origins than any other extant species in the world yet their numbers in the wild are rapidly declining In that sense the Bossou chimpanzees and their neighbors clearly embody an invaluable cultural heritage for humanity as a whole Readers can enjoy video clips illustrating unique behaviors of Bossou chimpanzees in an exclusive DVD accompanying the hardcover or at a dedicated website described in the softcover Literatures in African Languages B. W. Andrzejewski, S. Pilszewicz, W. Tyloch, 1985-11-21 Although African literatures in English and French are widely known outside Africa those in the African languages themselves have not received comparable attention In this book a number have been selected for survey by fourteen specialist writers providing the reader with an introduction to this very wide field and a body of reference material which includes extensive bibliographies and biographical information on African authors Theoretical issues such as genre divisions are discussed in the essays and the historical social and political forces at work in the creation and reception of African literature are examined Literature is treated as an art whose medium is language so that both the oral and written forms are encompassed This book will be of value not only to readers concerned with the cultures of Africa but to all those with an interest in the literary phenomena of the world in general *African-American Exploration in West Africa* James Fairhead, Tim Geysbeek, Svend E. Holsoe, Melissa Leach, 2003-11-13 In the 1860s as America waged civil war several thousand African Americans sought greater freedom by emigrating to the fledgling nation of Liberia While some argued that the new black republic represented disposal rather than emancipation a few intrepid men set out to explore their African home African American Exploration in West Africa collects the travel diaries of James L Sims George L Seymour and Benjamin J K Anderson who explored the territory that is now Liberia and Guinea between 1858 and 1874 These remarkable diaries reveal the wealth and beauty of Africa in striking descriptions of its geography people flora and fauna The dangers of

the journeys surface too Seymour was attacked and later died of his wounds and his companion Levin Ash was captured and sold into slavery again Challenging the notion that there were no black explorers in Africa these diaries provide unique perspectives on 19th century Liberian life and life in the interior of the continent before it was radically changed by European colonialism
