Contested Tongues Language Politics Cultural Correction In Ukrain:

Contested Tongues Laada Bilaniuk, 2005 During the controversial 2004 elections that led to the Orange Revolution in Ukraine cultural and linguistic differences threatened to break apart the country Contested Tongues explains the complex linguistic and cultural politics in a bilingual country where the two main languages are closely related but their statuses are hotly contested Laada Bilaniuk finds that the social divisions in Ukraine are historically rooted ideologically constructed and inseparable from linguistic practice She does not take the labeled categories as givens but questions what Ukrainian and Russian mean to different people and how the boundaries between these categories may be blurred in unstable times Bilaniuk's analysis of the contemporary situation is based on ethnographic research in Ukraine and grounded in historical research essential to understanding developments since the fall of the Soviet Union Mixed language practices surzhyk in Ukraine have generally been either ignored or reviled but Bilaniuk traces their history their social implications and their accompanying ideologies Through a focus on mixed language and purism the author examines the power dynamics of linguistic and cultural correction through which people seek either to confer or to deny others social legitimacy The author's examination of the rapid transformation of symbolic values in Ukraine challenges theories of language and social power that have as a rule been based on the experience of relatively stable societies

Translanguaging in Higher Education Catherine M. Mazak, Kevin S. Carroll, 2016-12-09 This book examines translanguaging in higher education and provides clear examples of what translanguaging looks like in practice in particular contexts around the world While higher education has historically been seen as a monolingual space the case studies from the international contexts included in this collection show us that institutions of higher education are often translanguaging spaces that reflect the multilingual environments in which they exist Chapters demonstrate how the use of translanguaging practices within the context of global higher education where English plays an increasingly important role allows students and professors to build on their linguistic repertoires to more efficiently and effectively learn content The documentation of such practices within the context of higher education will further legitimize translanguaging practices and may lead to their increased use not only in higher education but also in both primary and secondary schools
