Contextual Analysis:

Contextual Analysis Gudmund R. Iversen,1991 Contextual analysis the study of the role of the group context on actions and attitudes of individuals is a useful technique in the study of education neighborhoods census tracts election districts and the family However the effective use of contextual analysis has involved overcoming a number of issues such as group boundaries the mobility of the individuals within a group overlapping groups missing individual data and the choice of statistical models Contextual Analysis offers researchers a guide for selecting the best model to use Written in a straightforward style the book explores such topics as contextual analysis with absolute effects with relative effects and the choice between regression coefficients as fixed parameters or as random variables Textual and Contextual Analysis in Empirical Translation Studies Sara Laviosa,Adriana Pagano,Hannu Kemppanen,Meng Ji,2016-07-28 This book presents the state of art research in ETS by illustrating useful corpus methodologies in the study of important translational genres such as political texts literature and media translations Empirical Translation Studies ETS represents one of the most exciting fields of research It gives emphasis and priority to the exploration and identification of new textual and linguistic patterns in large amounts of translation data gathered in the form of translation data bases A distinct feature of current ETS is the testing and development of useful quantitative methods in the study of translational corpora In this book Hannu Kemppanen explores the distribution of ideologically loaded keywords in early Finnish translation of Russian political genres which yielded insights into the complex political relation between Finland and Russia in the post Soviet era Adriana Pagano uses multivariate analysis in the study of a large scale corpus of Brazilian fiction translations produced between 1930s 1950s which is known as the golden age of Latin American translation The statistical analysis detected a number of translation strategies in Brazilian Portuguese fictional translations which point to deliberate efforts made by translators to re frame original English texts within the Brazilian social and political context in the first three decades under investigation Meng Ji uses exploratory statistical techniques in the study of recent Chinese media translation by focusing three important media genres i e reportage editorial and review The statistical analysis effectively detected important variations among three news genres which are analysed in light of the social and communicative functions of these news genres in informing and mobilising the audience in specific periods of time in Mainland China California.
