**CONTEMPORARY ISSUES IN MULTIDISCIPLINARY SUBJECTS: VOLUME-1** Sruthi. S, Dr. Shalini Jiwan Chahande, Shantaram Baban Bhoje, Prof. R. Anita, Dr. Shalini Chaturvedi, Dr. Satyendra Nath, Dr. Umesh D. Laddha, Bhagyashree M S, S.R.K. Rao, **Adolescence** Dena Phillips Swanson, Malik C. Edwards, Margaret Beale Spencer, 2010-01-04 This edited textbook will be appropriate for use in advanced undergraduate and graduate level courses and will serve as a comprehensive and timely introduction to the field of adolescent development providing students with a strong foundation for understanding the biological cognitive and psychosocial transitions occurring during adolescence While certain normative biological and cognitive processes are relevant for all youth development varies dramatically based on a youth's position in society The volume will focus on contextual factors such as culture racial identity socioeconomic position and sociopolitical and historical events highlighting the impact such factors have on the physiological and psychological processes and treating them as key elements in understanding development during this life stage The authors will cover the major theoretical positions both historical and contemporary about adolescence as well as the relevant research and application Additionally modern phenomena the ever increasing influence of pop culture i.e. Hip Hop mass media and technology i.e. the internet gaming and the evolution of family education and the church will be explored in depth Each chapter will be written by a known expert in the field More extensive analysis of cultural political and socioeconomic factors impacting development than competing texts Research to Practice section covers evidence based research on practice implementation **Readings in Contemporary Problems in the United States** Horace Taylor, Joseph Daniel McGoldrick, 1930 Gift of Rabbi W Gunther Plaut **Contemporary Issues in Politics & International Relations** Nesrin Kenar, 2021-12-26 Conflict is a phenomenon as old as human history Although the actors and reasons have changed conflicts have occurred in every period of history In the pre Cold War era conflicts in the international system were experienced between states The conflicts during the Cold War mainly were interstate conflicts arising from the rivalry between the two blocs In this period it was expected that the threat to the security of a state would come from outside the borders of the state and from other states For this reason all the regulations made by the League of Nations which was established at the end of the First World War and the United Nations which was established after the Second World War to protect international peace and security included the measures to be taken against the attack or threat of attack by one state against another state However the developments that took place right after the end of the Cold War confirmed that the risk of interstate conflict decreased and new security threats emerged in this period The conflicts that emerged in the post Cold War period were separatist conflicts due to ethnic and religious reasons such as the former Yugoslavia and Georgia or intra border conflicts that occurred for other reasons such as in Syria Upon the inadequacy of international organizations and international law to intervene in intra border conflicts the concept of security was redefined and a transformation from the security of the state to

the security of the individual took place New security threats such as environmental security human security food security terrorism weapons of mass destruction and pandemics have been identified One of the reasons for the decrease in conflicts between states in the post Cold War period is that states mostly use soft power instead of military force in achieving their foreign policy goals The structure of the international system is also a dynamic that affects conflicts After the end of the bipolar system the transformation of the international system is not yet complete One of the most critical problems in today's world is the competition and struggle between states to become the future superpower While the US wants the current status quo to continue China is trying to change the status quo in its favour The European Union is to become the dominant power in the international system after its transformation in the post Cold War period
