## **Contemporary Dance:**

**Choreographing Difference** Ann Cooper Albright, 2010-06-01 The choreographies of Bill T Jones Cleveland Ballet Dancing Wheels Zab Maboungou David Dorfman Marie Chouinard Jawole Willa Jo Zollar and others have helped establish dance as a crucial discourse of the 90s These dancers Ann Cooper Albright argues are asking the audience to see the body as a source of cultural identity a physical presence that moves with and through its gendered racial and social meanings Through her articulate and nuanced analysis of contemporary choreography Albright shows how the dancing body shifts conventions of representation and provides a critical example of the dialectical relationship between cultures and the bodies that inhabit them As a dancer feminist and philosopher Albright turns to the material experience of bodies not just the body as a figure or metaphor to understand how cultural representation becomes embedded in the body In arguing for the intelligence of bodies *Choreographing Difference* is itself a testimonial giving voice to some important political moral and artistic questions of our time Ebook Edition Note All images have been redacted [The Essential Guide to Contemporary Dance Techniques](#) Melanie Clarke, 2020-03-23 *The Essential Guide to Contemporary Dance Techniques* explores the multifaceted learning processes and underlying principles behind the technical skills and abilities of a contemporary dancer The depth and complexity of this challenging sensorial intellectual reflective and creative process is presented with clarity to support every training dancer in achieving the most from their learning experiences Insights into three major technical forms Graham technique Cunningham technique and Release based technique reveal the distinct approaches processes and experiences possible in contemporary dance training Essential technical and performance considerations are covered including breath alignment core activation connectivity dynamic qualities of motion use of the body use of space action and finally relationships to the audience With personal contributions from respected teachers at top dance institutions this practical guide offers a unique insight into the expectations and processes of professional training classes as well as the success you can achieve with them With images from real life technique classes and dynamic performances this is an essential companion for all contemporary dance students **Heat and Alterity in Contemporary Dance** Ananya Chatterjea, 2020-10-28 This book argues that contemporary dance imagined to have a global belonging is vitiated by euro white constructions of risk and currency that remain at its core Differently the book reimagines contemporary dance along a South South axis as a poly centric justice oriented aesthetic temporal category with intersectional understandings of difference as a central organizing principle Placing alterity and heat generated via multiple pathways at its center it foregrounds the work of South South artists who push against constructions of tradition and white centered aesthetic imperatives to reinvent their choreographic toolkit and respond to urgent questions of their times In recasting the grounds for a different global stage the argument widens its scope to indicate how dance making both indexes current contextual inequities and broader relations of social economic political and cultural power and inaugurates future dimensions of justice

[Dancing at the Crossroads](#) Helena

Wulff,2008-10 Dancing at the crossroads used to be an opportunity for young people to meet and enjoy themselves on mild summer evenings in the Irish countryside until this practice was banned by the Public Dance Halls Act of 1935 Now a key metaphor in Irish cultural and political life dancing at the crossroads also crystallizes the argument of this book Irish dance from Riverdance the commercial show to competitive dancing and dance theatre conveys that Ireland is in a crossroads situation Irish dance with a firm base in a distinctly Irish tradition is becoming a permanent part of European modernity While this book highlights the captivating tensions and ties surrounding debates on Irish dance it also aims to extend broader understandings of place mobility and rooted cosmopolitanism

*How to Land* Ann Cooper Albright,2019 *How to Land* Finding Ground in an Unstable World foregrounds the importance of embodiment as a means of surviving the disorientation of our twenty first century world Linking somatics and politics author Ann Cooper Albright argues that a renewed attention to gravity as both a metaphoric sensibility and a physical experience can help transform moments of personal disorientation into an opportunity to reflect on the important relationship between individual resiliency and communal responsibility Long one of the nation's preeminent thinkers in dance studies Albright asks how contemporary bodies are affected by repeated images of falling bodies bombed out buildings and displaced peoples as well as recurring evocations of global economies and governments in discursive free fall or dissolution What kind of fear gets lodged in connective tissue when there is an underlying anxiety that certain aspects of our world are in danger of falling apart To answer this question she draws on analyses of perception from cognitive studies tracing the discussions of meaning body and language through the work of Sara Ahmed Jean Luc Nancy and Shaun Gallagher among others In addition she follows the past decade of debate in contemporary media concerning the implications of the weightless and two dimensional social media exchanges on structures of attention and learning as well as their effect on the personal growth and socialization of a generation of young adults Each chapter interweaves discussions of movement actions with their cultural implications documenting specific bodily experiences and then tracing their ideological ripples out through the world
