Essential Principles of Contract and Sales Law in the Northern Pacific Daniel P. Ryan, 2005. Taking an anthropological approach, *Essential Principles of Contract and Sales Law in the Northern Pacific* highlights how regional customary and traditional law interact with Anglo-American concepts of contract and sales law to produce a unique amalgam of substantive law in this Pacific region. Author and law professor Daniel P. Ryan compiles and discusses the current contract and sales law applicable in the Pacific region, including the Republics of Palau and the Marshall Islands, Hawaii, Guam, Northern Mariana Islands, American Samoa, and the Federated States of Micronesia. Ryan compares and contrasts this regional law to international standards, including the UN Sale of Goods Convention, the UNIDROIT Principles of Contract Law, UNCITRAL Model Law for E-Commerce, the Uniform Commercial Code, the Revised Uniform Commercial Code, and the Restatement (Second) of Contracts. *Essential Principles of Contract and Sales Law in the Northern Pacific* is essential reading for members of the judiciary, academics, practitioners, students, and businesses within the region and their major trade partners.

The New European Private Law: Vol. 3: Essays on the Future of Private Law in Europe Martijn Hesselink, 2002-10-16. In *The New European Private Law*, Martijn W. Hesselink presents a revised and supplemented collection of essays written over the last five years on European private law. He argues that the creation of a common private law in Europe is not merely a matter of rediscovering the old *ius commune* or of neutrally establishing the present common core, which may be codified in a European Civil Code. Rather, it is a matter of making choices, some of which may be highly controversial. In this book, he discusses some of the most important choices which will have to be made with regard to culture, principles, politics, models, rights, concepts, and structure in the new European private law.

Contract Law Steven J. Burton, 1995.

Basic Contract Law Lon Luvois Fuller, Melvin Aron Eisenberg, 2006. The Eighth Edition continues the approach of earlier editions in emphasizing rich, full-bodied versions of the principal cases and a functionalist approach to the problems of contract law. The new edition includes a great number of new principal cases and case notes, as well as longer analytical notes on such issues as the differences between classical and modern contract law, the role of the limits of cognition in contract law, and the role of probability in measuring uncertain contract damages. The emphasis of previous editions on international contract law continues in this new edition.

Contract Law Steven J. Burton, 2010. This text provides a collection of materials that can be used with any contract law casebook. In addition to the editor's helpful introduction to the materials, this volume contains relevant portions of the Restatement of the Law (Second) Contracts and Article 2 of the Uniform Commercial Code, materials on electronic contracting such as excerpts from the text and comments of the Uniform Computer Information Transactions Act, portions of the text and comments of the Uniform Electronic Transactions Act, and portions of the Electronic Signatures in Global and National Commerce Act.
