Drake, 2013-10-18 This book traces the relations between the organization of violence and social and political order from ancient Rome to early modern Europe Following the work of Michel Foucault the author studies the ways authority obedience and forms of self conduct were produced by the micro techniques used to govern the bodies of violence deployed in different forms of warfare *A Distant Mirror* Barbara Wertheim Tuchman, 1997

**Affective medievalism** Thomas A. Prendergast, Stephanie Trigg, 2018-09-25 This book investigates the troubled relationship between medieval studies and medievalism Acknowledging that the medieval and medievalism are mutually constitutive and that their texts can be read using similar strategies it argues that medieval writers offer powerful models for the ways in which contemporary desire determines the constitution of the past This desire can not only connect us with the past but can reconnect readers in the present with the lost history of what may be called the medievalism of the medievals In other words to come to terms with the history of the medieval is to understand that it already offers us a model of how to
