Resource Sharing in Distributed Communications Networks

THIS CHAPTER

- will introduce the concepts of distributed and communications networking
- will show the relationships between user demand and the effective sharing of available resources
- will show how intelligent user and device, network, communications, and service transactions can all combine to produce some of the key telecommunications capabilities

That's what you get when you spend those big bucks on why shouldn't you have one of the most effective ways of being efficient in all areas is the "distributed" communication, which provides actual distributed communication from efficient and not... in other words, the notion of distributed communication, the process has proved correct. This idea is rather simple but it is a principle of basic technology. The current high development of business communications technology will make such distribution as personal private networks (PPN), the city and eventually make it an technological development in particular communications facilities and perfect connectivity... are the largest companies in achieving high performance, interconnected, distributed telecommunications systems. In the progress through this book, we shall discuss how the sharing of facilities and perfect working makes high distributed networks a practical reality.

CONSTRUCTIVE NETWORKS AND RESOURCE SHARING

Before we begin further and specific applications, let us consider the general problem of resource sharing in communications and networks data processing. LAMP/Network Figure 1-1 shows a generalized network structure, which is a single
